

Homemove Online Application

Internet Access Points

The online form will take you approximately 1 hour to complete. In order to complete the form you will need to make sure that you have personal information for all members of your household such as National Insurance numbers, dates of birth, pregnancy due date, and your address history for the last 5 years.

You do not have to complete the form all at once. If you want to make a start and then finish it later you just need to make a note of the login and password when you exit the screen.
