RULES OF THE NATURAL BURIAL SECTION

1. All graves will be excavated to single or double depth as required.
2. Graves may remain "Ordinary Graves" with all Rights ascribed and vested in Hastings Borough Council, but where desired an Exclusive Right of Burial subjected to the Rules of the Natural Burial Area may be purchased. (This would be more appropriate where graves are intended to be re-opened at a future date).
3. At an appropriate time after each funeral, when soil settlement has taken place, the grave area will be seeded with grass and wild flower seeds at a seasonable time of year.
4. The adjacent tree and shrubs are the living memorial and no other forms of memorial of any sort will be allowed at any time. One week after the interment any floral tributes will be removed from the top of the grave, flowers and any memorial placed in the area will be removed. Other forms of memorialisation are available elsewhere in the cemetery including the Book of Remembrance. Details may be obtained from the Cemetery Office.
5. Only bio-degradable coffins may be used. These may be of cardboard subject to their being capable of conveying the body decently to the graveside and being lowered into the grave
6. Arrangements exist for the reservations of an adjoining burial plot in the cemetery and these facilities will be available to those people using the Natural Burial area who wish to be buried beside another family member or loved one. No other reservations will be permitted.
7. Caskets containing cremated remains may be interred or strewn into existing graves but no provision has been made for cremated remains plots in the natural burial area. A grave plot will not be allocated solely for the interment or strewing of ashes. A separate Woodland Walk area in a natural copse has been designated for the placement of cremated remains in a natural setting.
8. Since the natural burial area is to be managed for the benefit of wildlife it will not resemble a traditional cemetery. The area for Natural burials will not be mowed in the way that the rest of the cemetery is and graves must not be interfered with by cutting or mowing by anyone other than authorised personnel. During the course of its 'return to nature' the area will appear to be overgrown and unkempt and this is the intention. Any outside attempts to ameliorate this situation or make 'tidier or prettier' will not be allowed.

The Manager has the right, without notice, to remove unauthorised items placed in the Cemetery or to re-instate graves in accordance with these rules.

I agree that I have read and understood the rules of the Natural Burial section

Initial here

SECTION 4 INTERMENT IN AN ORDINARY GRAVE

The deceased person described in Section 1 overleaf is to be interred in an Ordinary Grave in which other persons are, or may be buried. It is not desired that a private Grave Space be purchased for this interment.
