

Local Action Group Guidance for applicants Final Call - Work Package 4

The Local Action Group would particularly welcome:

Projects that offer employability support with strong BME links and focus will be favoured as these groups are currently under represented

Projects should work to “target” these groups as opposed to simply being “inclusive” of them

This is best combined with work package 3

The LAG expect to fund

- **one** partnership project with an overall project value of up to **£1,170,000** (grant and match funding)
- and/or
- a number of smaller projects with an overall project value between **£100,000 and £300,000** (grant and match funding)
