# **Part 1 Establishment of the Guidelines**

## **1. Scope of the Guideline**

- 1.1. These Retention Guidelines are intended to support the Council in the areas of Data Protection, Freedom of Information and the Local Government Act.
- 1.2. The Guidelines were developed to reflect an understanding of the administrative processes that give rise to record creation. This is intended to make the Guidelines independent of any particular format of record that might be historically created (e.g. card, register) or media (e.g. paper, electronic) and prolong the Guidelines' period of application.
- 1.3. The Guidelines are intended to cover the continuum of records and information from creation through to destruction or for retention for historical or research purposes.
- 1.4. Records sentenced for destruction under the Guidelines may be destroyed in accordance with the provisions of the Guidelines. Backup copies stored on alternative media (server/microfilm/paper) should also be destroyed. This is vital to ensure compliance with the requirements of Data Protection and Freedom of Information legislation.
- 1.5. Records for permanent preservation may be passed to Business Support to store in the Council's Archive.

## **2. Limitation of Scope**

- 2.1. It is up to the Corporate Management Team, Assistant Directors and Professional leads to interpret and apply the guidelines should any further assistance be required.

## **3. Objectives of the Retention Guidelines**

- 3.1. The aims of the Guidelines are to:
  - Assist in identifying records that may be worth preserving permanently as part of the Council's archives
  - Prevent the premature destruction of records that need to be retained for a specified period to satisfy legal, financial and other requirements of public administration
  - Provide consistency for the destruction of those records not required permanently after specified periods
  - Promote improved Records Management practices within the authority so that optimum use is made of the limited office space available
  - Comply with Data Protection legislation.

## **4. Transfer of Records to Archival Storage**

- 4.1. Officers wishing to transfer permanent records to the Council's archival custody should contact Business Support. The identification of classes of records here as suitable for archives are for guidance only.
- 4.2. It may well be that the Museum or County Archivist may be interested in keeping some historic documents. Enquiries should be made with the relevant organization.

- 4.3. The Data Protection Act provides an exemption for information about identifiable living individuals that is held for research, statistical or historical purposes to be held indefinitely, provided specific requirements are met.
- 4.4. Records identified in this schedule as 'permanent' are marked as such.
- 4.5. Records no longer required for administrative use may still retain sensitive information. What do we do about that?

**5. Enactment of Standard for a Local Authority**

- 5.1. As there is no legal basis for the enforcement and support of these Guidelines, the Council needs to ensure that the actions shown in the Guidelines are ratified internally.
- 5.2. Ratification can be achieved by obtaining the signature of the Director of Corporate Services and Governance or her nominee and the Chief Legal Officer.

5.3. This Retention and Disposal Schedule has been authorised by Cabinet.

..... Date of Issue.

**6. Destruction of Records**

- 6.1. Whenever there is the possibility of litigation, the records and information that are likely to be affected should not be amended or disposed of until the threat of litigation has been removed.
- 6.2. When records identified for disposal in the Guidelines are destroyed, a register of such records needs to be kept. For records not covered by the Guidelines you should contact the Director of Corporate Services and Governance, who will consult with the Chief Legal Officer to provide specific advice. It is not sufficient to document that a quantity of records had been destroyed on a certain date. Enough details should be retained to identify which records have been destroyed.

**7. Standard Operating Procedure (SOP)**

- 7.1. There are some records that do not need to be kept at all; Standard Operating Procedure defines types of records which staff may routinely destroy in the normal course of business. However, the retention and disposal schedule must still contain reference and instructions referring to them.

7.2. SOP usually applies to information that is duplicated, unimportant or only of short-term facilitative value. Unimportant records or information include:

- 'with compliments' slips
- catalogues and trade journals
- telephone message slips
- non-acceptance of invitations (other than those which should be recorded in the Council's Hospitality Register)
- trivial electronic mail messages or notes that are not related to the Council's business
- requests for stock information such as maps, plans or advertising material
- out-of-date distribution lists
- working papers which lead to a final report

7.3. Duplicated and superseded material such as stationery, manuals, drafts, forms, address books and reference copies of annual reports may be destroyed under SOP. Electronic copies of documents where a hard copy has been printed and filed, and thermal paper facsimiles after making and filing a photocopy, are also covered.

7.4. SOP should not be applied to records or information that can be used as evidence – to prove that something happened. If you are in doubt about what information is required consult with the Chief Legal Officer

7.5. All of these may be destroyed by standard operating procedure that should be part of any ISO 9000 (Quality Management) system if applicable.

## **8. Reviewing the Schedule**

8.1. This Guideline prescribes minimum and permanent retention periods. This guideline will also be reviewed at regular intervals. Next review due by 31/05/2019.
