

Appendix 1

What people told us

To support the development of our regeneration plan, throughout the summer (June 2025-October 2025) Hastings Neighbourhood Board asked people and businesses across Hastings how they would spend the £20 million in funding.

In total across all our involvement activity 7081 suggestions were made about how the funding should be spent. Responses have been systematically analysed and categorised to inform actionable investment themes, ensuring the regeneration plan reflects local priorities and delivers on the programme's commitment to community-led decision-making.

The below table details categories, including terms grouped within that category, and a count across all involvement activity showing which categories were mentioned the most.

Category	Count (across all involvement activity)
