- Sustainable Development
- Gender Equality and equal Ops( ESF/ ERDF)

FAQ

Glossary

Annex-

# Introduction

## What is 'Connecting Hasting and Rother Together' (CHART)?

Connecting Hasting and Rother Together (CHART) is a local grants programme which aims to support the social and economic development of the most deprived areas within the Hastings and Bexhill.

CHART has access to European Structural Investment Funds (ESIF) that can be used to support projects that will link the area's most deprived communities to opportunities. It will support individuals through investment of European Social Funds (ESF) and enterprises through investment of the European Regional Development Funds (ERDF).

CHART is a 'Community-led Local Development' (CLLD) programme, which means that it is led by a Local Action Group (LAG) ensuring a 'bottom-up', community based approach to investment within the area.

Hastings Borough Council is the Accountable Body for the CHART programme and will oversee the administration and management of CHART. The CHART programme is part funded by the European Regional Development Fund (ERDF) and European Social Fund (ESF). Therefore CHART will provide funding under the following Priority Axis:

- **European Regional Development Fund (ERDF)– Priority Axis 8: Promoting social inclusion and combating poverty and any discrimination.**
  - Investment Priority 9d1: Undertaking investment in the context of Community Led Local Development strategies
- **European Social Fund (ESF) – Priority Axis 1: Inclusive Labour Markets**
  - Investment Priority 1.5: Community Led Local Development

### Who can apply for CHART funding?

Applicants must be a legally constituted body, e.g. a Voluntary or Community Organisation; a registered charity; a statutory public sector organisation etc. and have strong links with the local communities in the CHART area.

For the European Social Fund, applicants and their delivery partners should also be:

- A qualifying charity
- A Service of General Interest (SGI)
- A Public Sector Body

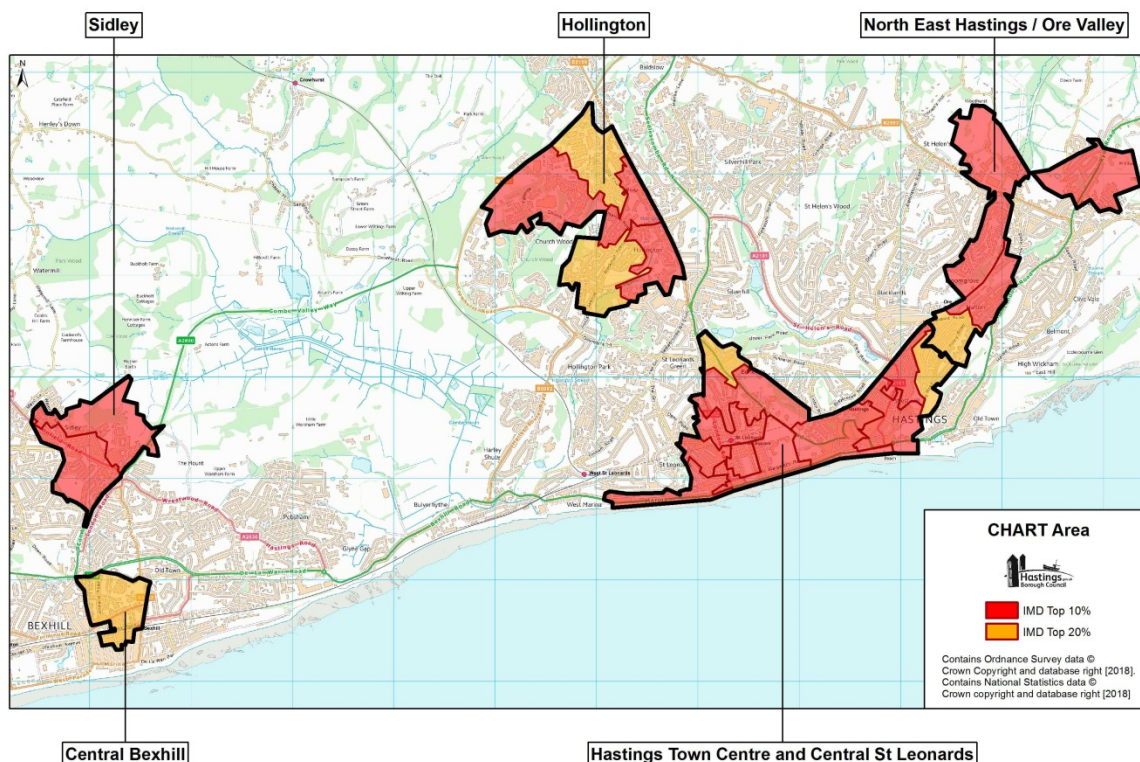

There is no formal requirement that applicants must be based within the CHART area, although it is necessary that applicants have genuine links with these communities and have an understanding of their strengths and needs. This implies that you may be in close proximity to those communities you support.

Informal groups and individuals cannot apply.

### Which areas of Hastings and Bexhill will be supported?

The CHART 'area' is based on the 20% most deprived LSOAs in Hastings and Bexhill as identified in the CHART LDS, based on data from the 2010 IMD report.<sup>1</sup> Shown in the map below:

You can check if your project sits within the CHART area by using an LSOA postcode lookup tool e.g. <http://imd-by-postcode.opendatacommunities.org/> and typing in the postcode of where the intervention will take place. A list of LSOAs in the CHART area can be found in Annex A.

### What will the CHART programme do?

The CHART programme will bring a fresh approach to tackling entrenched problems which conventional working has not managed to solve. It is particularly focused on:

- helping disadvantaged people to find and keep employment locally
- helping disadvantaged people to set up as self-employed or start a business
- stimulating the local economy to create jobs suitable for local people

Communities in Hastings and Bexhill will benefit from the availability of new services and support. The programme is by definition flexible and designed to respond to

<sup>1</sup> Index of Multiple Deprivation, a measure which uses different features of an area such as unemployment and health conditions to identify how disadvantaged places are compared to other places of similar population size.

local people's ideas and needs, meaning we cannot be prescriptive as to what sort of support will be on offer. But it is likely that there will be new ways in which unemployed people will be supported into work, through for example receiving training, offered work placements or shadowing, being helped to deal with health or housing issues which get in the way of finding work, being supported in a new job to stay the course and become settled.

There will also be help for people who have an idea for starting a local business or becoming self-employed. Although these sorts of services do exist already to some extent, CHART will be open to new, locally identified ideas, giving the community the chance to design its own response to long term problems.

### **Who should my project support?**

CHART will fund projects which support people within the CHART area (mainly unemployed and economically inactive) as well as local businesses (small and medium size) and voluntary and community groups.

We are particularly interested in projects that especially support:

- People from ethnic minorities
- People with disabilities (including people with mental health issues)
- People who have never worked
- People who are between 50 and 64 years old
- Entrepreneurs, small businesses (including social enterprises)

In order to support these people and businesses, CHART will offer funding within four (4) specific 'Work Packages':

- **Work package 1 COMMUNITY ASSETS (ERDF):** Investment in physical assets for employability and community benefit
- **Work package 2 ENTERPRISE AND BUSINESS SUPPORT (ERDF):** Stimulating local entrepreneurship and business growth
- **Work package 3 COMMUNITY DEVELOPMENT AND OUTREACH (ESF):** Work with local communities and organisations to build confidence and capacity to tackle local problems and improve the coordination of responses
- **Work package 4 EMPLOYABILITY SUPPORT (ESF):** Direct support to the most vulnerable unemployed / economically inactive CHART residents to move closer and into the labour market.

### **Can my organisation apply to deliver more than one work package?**

It is possible to apply for more than one work package, although applications cannot mix work packages 1&2 with work packages 3&4. This is because work packages 1&2 are funded through ERDF and work packages 3&4 are funded through ESF, which are two different funding streams with two different sets of rules and requirements.

If your organisation wishes to deliver a project that mixes work packages 1&2 with work packages 3&4, you will need to submit two separate applications.

## **What are the Relationships involved?**

### **European Commission**

The European Commission sets the framework for how ESF/ ERDF money must be administered, spent and evidenced. The commission can audit any organisations involved in the delivery of ESIF funded projects.

### **Managing Authority**

There are two Managing Authorities for CHART. The Managing Authority for ERDF Funding (Work Package 1&2) is the Ministry of Housing, Communities and Local Government (MHCLG) and the Managing Authority for ESF Funding (Work Package 3&4) is the Department for Work and Pensions (DWP). All individual project information/ claims will be collated and submitted to the Managing Authorities. MHCLG and DWP have different monitoring and claims processes.

### **SELEP ESIF sub-committee**

SELEP (South East Local Enterprise Partnership) is a partnership between local authorities, businesses and the community, established to determine the economic priorities and lead economic growth and job creation in the South East of England. They have determined the priorities that CLLD must deliver locally.

### **Accountable Body**

Hastings Borough Council is the Accountable body for the CHART programme and will oversee the administration and management of CHART. Hastings Borough Council will recruit a dedicated CHART programme team to oversee the running of the programme.

### **CHART Local Action Group (LAG) Board**

The CHART LAG Board is made up of a range of stakeholders from the CHART community (public/ private/ voluntary sector and residents). The LAGs main function is to consider and approve CHART projects to ensure they are the best fit for the CHART community and meet the objectives of the CHART Local Development Strategy.

### **Grant Recipients**

This is the organisation that funding will be awarded to. This could be to a single organisation or via a 'lead partner' with partner organisations. This organisation will have legal responsibility for the grant and be financially accountable for the grant and any money that is distributed to partners.

The grant recipient will need to collect, check and report on a range of information to the CHART Programme Team.

## **Getting Started**

## Grant Funding Agreement

The first thing you need to do is accept the grant funding agreement. The grant funding agreement is made up of:

- The general and project specific terms and conditions of the CHART grant
- Arrangements for monitoring and returns
- Project milestones and payment schedule
- The outputs and results related to your project
- GDPR requirements under the Data Protection Act 2018
- Circumstances in which the grant may be reduced or terminated
- Consequences of termination

We will send you two copies of these documents. To accept the grant agreement we need at least two people with appropriate authority from your organisation to sign one copy of the letter and to return it to us, with the terms and conditions still attached. The letter explains who this should be. You keep the other copy for your records.

The grant funding agreement starts on the date you sign and return it to us and lasts until the document retention period draws to a close. This is because projects may be audited at any point up to this date.

## Grant Induction

Our Compliance and Monitoring Officer will arrange an induction with you during the first few weeks. This is an opportunity to talk through the process and the guidance we've sent you, so that you can ask any questions and we can clarify anything you're unsure about. This will help to develop the working relationships that will be vital to the success of the project.

### Scheduling Targets and project Outcomes

Your target and Project Outcome Schedule ([Annex R](#)) ensures that you can realise the benefits of the project during its lifetime. We'll use this schedule to monitor your progress at your quarterly claims and we'll agree updates to it throughout the delivery of the project to reflect any changes.

## Setting up the grant

We need to ensure that you're ready to start the project.

Our Compliance and Monitoring Officer will arrange a date with you and may request that certain personnel are available. It is likely that the grant set-up will be done through a visit.

### What will be covered in the visit?

1. Orientation
  - Using our electronic templates/ resources
  - How changes to the guidance will be communicated.

2. Payments and monitoring
  - How you'll report each quarter.
  - How payments and adjustments will work.
3. Project Outcomes/ Results
  - How targets work.
  - How we'll monitor your performance
4. Participants/ Enterprises/ Beneficiaries
  - Checking eligibility and maintaining a participant/ beneficiaries file.
  - Collating and reporting participant/beneficiaries information.
  - Identifying participants involved in more than one CHART project.
5. Partners and procurement
  - Dealing with changes to your partnership.
  - Managing procurement and notifying us about your plans.
6. Costs and expenditure
  - Evidencing expenditure.
  - Calculating indirect costs.
  - Collating and reporting your costs.
7. Publicity
  - Publicity processes
  - Using the ESIF and CHART logo
8. Cross-cutting themes
  - How the cross-cutting themes are fully integrated into the project.
  - Developing and implementing your action plans.
9. Evidence and retention
  - How evidence is collected, checked and retained.
  - How data is stored, protected and retained.

## Monitoring & Payments

### **Submitting a Quarterly Claim- ESF**

At the end of each quarter, you'll need to send us your claim. This will provide us with a detailed picture of how the grant is being spent and how the project is performing.

You'll also need to provide documentary evidence for each claim for example: invoices, procurement evidence, job descriptions, staff timesheets, and proof of defrayment (bank statements).

We'll need you to complete the following documents to process your claim:

- CHART Claim Progress report (Annex B)- *To include update on performance and progress to date and the planned activity going forward*
- CHART Claim Form- ESF (Annex C) - *Outputs, Expenditure, Procurement, State Aid, Assets, Forecasts*
- CHART Transaction List (Annex D)- *Further detail on costs being claimed*
- CHART Participant Data Schema- ESF- *Provides all information on project participants*

Given the sensitivity of some of the information you'll be reporting, we'll establish a secure file transfer so that lead organisations can send this to us. Under no circumstances should participant monitoring information be sent to us by email.

Project partners will need a similar route for sending sensitive information to the lead organisation, which avoids the use of email.

## How to Complete the Progress Report

The progress section must contain suitable commentary on the performance and progress of the project to date and the planned activity going forward. This must provide sufficient detail to demonstrate successful delivery of the activities and deliverables and if there is any slippage of performance, measures being put in place to bring the project back on track.

Detail of what is expected in each section is outlined below. Please contact our CHART Project Delivery Animator for further guidance on specific progress report queries.

<b>Physical Progress</b>	Please report on the actual activities undertaken in the claim instalment period. This should relate back to the scope of activities outlined in your full application and Funding Agreement. If there have been any delays or issues encountered in the period these should be detailed along with measures to address them.
<b>Financial Performance</b>	This section should cover project performance in terms of actual expenditure against the profiled values contained in the Funding Agreement. Consideration should also be given to forecast expenditure and whether the project is still on track and to budget. Any expenditure slippage should be explained and justified with plans outlined on how the slippage will be addressed. Any potential overspend or a request to re-profile expenditure should be flagged up here.
<b>Outputs</b>	Actual achievement of targets and forecast against the profile outlined within the funding agreement. Identify any issues relating to measuring/

	<p>evidencing targets or take up from participants/businesses.</p> <p>Variances from the contracted profiles i.e. 'slippage' should be explained and detail provided of remedial measures to bring things back on track.</p>
<b>Specific Conditions</b>	Report progress on specific conditions in the project Funding Agreement.
<b>Income (ERDF only)</b>	If income generation is applicable you will be required to report on the values generated.
<b>Match Funding</b>	Update on match funding received
<b>Equal Opportunities &amp; Sustainable Development</b>	Report on how what improvements/updates/amendments have been made to show how Equal Opportunities and Sustainable Development governance, policies and implementation/action plans have progressed in the claim instalment period.
<b>Looking Ahead</b>	Provide an update on milestones, and key activities planned for next claim period, highlighting any challenges you're facing.
<b>Project Issues and Changes</b>	Report on any significant changes to the project that will have impact upon the deliverables, programme and budget. If applicable the change request form should be completed.
<b>State Aid</b>	Provide update on State Aid received as a Grant Recipient and what State Aid has been dispersed to SME Beneficiaries (if relevant). Please seek guidance from the CHART Delivery Animator if you are unsure how to complete this section.
<b>Branding and Publicity</b>	Report on any publicity activity that has taken place during the claim period. <i>This may include publicity material, leaflets, banners or stationary and any press releases, newspaper articles or publicity events.</i>
<b>Procurement</b>	Please report on any procurement within this claim and any planned procurement within the next claim period.

## Claiming Costs

You must capture all project expenditure on the CHART Claim Form and Transaction sheet, this will allow us to monitor all expenditure and ensure they are in line with your funding agreement. All costs claimed must:

- Fall within the agreed scope of the project activities and within the agreed expenditure as per your funding agreement.
- Conform to the eligibility criteria as set out in the ESIF National Eligibility Rules. <https://www.gov.uk/government/publications/european-structural-and-investment-funds-eligibility-documents>
- Be paid and left your bank account by the end date of the claim instalment period. 'Date paid' is the date the payment appears on your bank statement.
- Follow agreed apportionment methodologies for shared costs or indirect costs. See [Annex E](#).
- Only include 'Flat Rate' indirect costs if they have been agreed within your funding agreement. [See Annex E](#).
- Be backed up by a full audit trail containing all original or certified copies of source documentation from receipted invoices to bank statements and accounting documents of equivalent verifiable value. These need to be maintained and made available for verification checks and audits.

## How to Complete the Transaction List

A transaction list, itemising each item of expenditure must be completed to support each claim.

The transaction list spreadsheet contains three tabs entitled 'Guidance', 'Transactions' and 'Summary'.

Please refer to the 'Guidance' tab before populating the 'Transactions' tab.

Please note that the transaction sheet does not allow for negative values. This means that credit notes cannot be recorded at present. It is recommended that a record of each credit note is kept and you discuss this with your Compliance and Monitoring Officer.

The details required when completing the transaction list are:

- **Cost Category** – Select the eligible cost categories as agreed and set out in your grant funding agreement
- **Delivery Partner** – If the project has delivery partners a unique identifying number will need to be allocated to each partner.

- **Priority Axis -**
  - ESF projects will be– Priority Axis 1: Inclusive Labour Markets
- **Investment Priority –**
  - ESF projects– Investment Priority 1.5: Community Led Local Development
- **Procured Contract ID** – Enter Procurement Contract Number from Annex 2e
- **Supplier Name** – Enter the name of supplier, creditor / payee or employee.
- **Supplier VAT Number** – Enter the Supplier VAT number
- **Invoice Reference** - Invoice/receipt or reference number. All documents should be given a separate unique reference number and be attached to a distinct budget line to identify clearly the item expenditure for audit purposes.
- **Invoice Date** - Date on the invoice or if salaries the date posted on your accounting system.
- **Defrayal Date** - Date the money was defrayed/paid (i.e. left your bank account – as appears on your bank statement). (For large organisations the BACS defrayal date maybe acceptable and should be discussed with the Managing Authority).
- **Defrayal Method** – Select from the drop down the method of payment, i.e. BACS, Cheque, Credit Card. Along with the transaction / reference number or cheque number.
- **Defrayal Reference** – Enter payment reference relevant to transaction.
- **Expenditure Details/Description** – please enter a full descriptive narrative of the expenditure item being claimed to ensure clarity for any reader on what is being included (see additional details below for more assistance). If a defrayal date falls after the invoice date please provide explanation on this.
- **Apportionment Details** - Indicate how the eligible value is derived from the original invoice / receipt value i.e. the method of apportionment, ineligible costs removed.
- **Total Invoice Value (excluding VAT)** - Indicate the total Net expenditure value of the invoice or receipt, (total documented value excluding VAT).

- **Total Irrecoverable VAT** – state the value of VAT which cannot be recovered from another source (HMRC) of the invoice / receipt following any adjustments for apportionments or ineligible costs. *Note that if you are VAT registered and are able to recover VAT from HMRC but chose not to this still cannot be included in your claim.*
- **Total Eligible value** - Enter the project eligible expenditure amount after any apportionment or adjustments have been applied and irrecoverable VAT added in. This is the expenditure value minus adjustments for which ERDF is being claimed against.
- **Eligible for Flat Rate Indirect Costs** – Select from drop down menu Yes or No. Flat rate costs are calculated at an agreed percentage of the actual direct staff costs. The flat rate costs must **not** be entered onto the transaction sheet. An offline calculation should be undertaken. This amount is then claimed directly on the claim form.
- **Total Category of Region Expenditure** – Leave blank

### Descriptions of Costs

You'll need to provide clear and simple descriptions for costs within the Transaction List (Expenditure Details/Description). The table below aims to provide further guidance on acceptable/unacceptable expenditure descriptions for expenditure being claimed. Please note that these are just examples:

Unacceptable Description	Acceptable Description
Room hire	Room hired for [state purpose and with whom] on [date] at [place]
Catering	Catering charge for [state purpose] on [date] at [place]
Salary	Salary for [state at least one of name/post/payroll number] for period dd/mm/yy to dd/mm/yy
Salaries	Salaries for project management/delivery team for period dd/mm/yy to dd/mm/yy (A complete breakdown of this total identifying the post holders/employees claimed should be attached)
Expenses	Expenses for [name] covering period dd/mm/yy to dd/mm/yy [Include detail of type of expense e.g. mileage, parking, subsistence, claim reference number if applicable]
Plant/Machinery	Purchase of [name/short description of item of plant or machinery] received on dd/mm/yy, as shown in the [funding agreement].

Insurance	Building and contents insurance for [identify premises insured] for period dd/mm/yy to dd/mm/yy
Mobile charges	Mobile phone rental/call charges for [name of person] covering period dd/mm/yy to dd/mm/yy
Rates	Business rates charged for [identify premises charged] to cover period dd/mm/yy to dd/mm/yy

## How to complete the Claim Form

The table below provides detail on how to populate the 'Eligible Expenditure and Claims Details' section on the Claim Form. This draws on the information you have collated using the Transaction List and any previous claims.

Defrayed expenditure for which grant is now payable	Capital	Revenue
Total Cumulative Eligible expenditure defrayed prior to the claim period (£)	<p>Eligible expenditure from all previous claims submitted to Accountable body.</p> <p>If there is capital expenditure then this should be spilt out between Capital and Revenue.</p>	
Amount of Eligible Expenditure Defrayed within the claim period (£)	<p>Eligible expenditure from the transaction sheet + X % of indirect staff costs where applicable. <b>Note that % of indirect costs may be different for ESF/ERDF projects.</b></p> <p>If there is capital expenditure then this should be spilt out between Capital and Revenue.</p>	
Amount of Income Received Under Article 65 (8)) (£). Projects Generating Revenues During Implementation Only.	<p><b>ERDF ONLY.</b></p> <p><b><i>You do not need to complete this for your ESF project.</i></b></p>	

### Forecast Expenditure

A profile of future anticipated expenditure is needed for every claim. You must ensure these forecasts are as accurate as possible. **Flat profiles (simply apportioning future expenditure equally across the remaining claim periods) are not acceptable.**

Variances from the contracted profiled forecast, known as 'slippage', must be explained and justified within the claim.

The Project Expenditure Actual and Forecast tab should be completed to capture this information. Expenditure must be broken down by:

- Investment Priority-
  - ESF projects– Investment Priority 1.5: Community Led Local Development
- Category of Region – More Developed

### **Output Detail**

'Output Details' tab form must be completed for each claim. This document should provide the **detailed** information on the outputs achieved within the claim period.

In addition the 'Project Outputs Actual and Forecast' form tab must be completed and submitted with every claim. This is designed to enable you to set out the following key information:

- Overall actual achievement of each contracted output to date
- Forecast of expected achievement for each contracted output for the current year, broken down by quarter.
- A forecast of expected achievement for each contracted output for future years

### **Procurement**

All procurement undertaken must be recorded on claim form, under the Procurement tab, please complete Annexes 2e and 2f

- **Procured Contracts**

Complete and update Procurement Annex 2e with any updates or amendments on Procurements which have been awarded prior to the claim.

- **Future Procurements**

Complete and update Annex 2f with any additional contracts which will not be awarded prior to approval of the claim.

### **Assets**

Report on any assets purchased/disposed of during the claim period completing the 'Asset & Disposal Register' tab.

## **Problems with Processing a Claim**

You must get in touch with us if you become aware that you are unable to make a grant claim in accordance with the outlined timescales or within the expenditure profile.

In the event that no expenditure has been defrayed during the instalment period a "nil claim" must still be submitted. The claim should include a progress report

providing details of progress towards delivery and achievement of the project objectives/activities, expenditure forecast and outputs forecast.

If you need further guidance then please do not hesitate to get in touch with the CHART programme team.

## How we will make payments

Payments will be made to you in arrears. Because of this, you need to be able to cashflow your project for between six (6) to nine (9) months at a time.

We will make all payments to you electronically using our finance system, UNIT4.

## Scheduling Payments

During the set-up of the project and Grant Funding Agreement, you'll need to complete a payment schedule ([Annex P](#)). Your payment schedule is used to map out your project expenditure over the lifetime of the project.

Each quarter, we'll review your actual costs against this forecast. You'll update the schedule throughout and we'll use it to record any adjustments to the grant.

## Making payments

In order to process a payment, we'll need to have received all your claim documents by the deadline date we have given you. These will need to be reviewed and approved by our Compliance and Monitoring Officer before a payment is made.

Claims are to be submitted in arrears for each instalment period and only eligible expenditure defrayed (incurred and 'paid', i.e. cleared bank account) by the end of that period can be included in the claim for reimbursement. Because of this, you need to be able to cashflow your project for between six (6) to nine (9) months at a time.

A claim will only be processed for payment once our Compliance and Monitoring Officer is satisfied that all information is present, complete and compliant with the terms and conditions of the Funding Agreement and National ESIF Eligibility Rules.

Example payment timeline:

Action	By when
Grant recipient claim deadline	15 of month, 2 weeks after the quarter end (15/4 for 1 <sup>st</sup> quarter)
Eligibility and performance compliance and monitoring checks and audit completed within a 4 week period to release grant payment	Grant recipient payment on 15/5
HBC (Accountable Body) then compiles Managing Authority claims (Grant	For submission to Managing Authority by 15/7

Recipient Q1 defrayals)	This coincides with grant recipients Q2 claim deadline (15/7)
Accountable body to receive initial Managing Authority claim up to 5 months after defrayal	(15/11)

### **Final payment**

In line with the conditions on us as Accountable Body for this funding, we will need to withhold 10% of the total grant award as a retention payment. This is to ensure that all of the monitoring information we need to close the project has been provided as we have this to provide to the Managing Authority to enable us to draw down the final funds. Your retention payment will be taken from your final grant instalment.

### **Penalties**

Any actual underspend variance greater than 15% from the contracted expenditure profiles in your payment schedule may result in de-commitment or withdrawal of CHART funding in line with the programme underperformance policy ([Annex F](#)).

### **Making Adjustments**

'Adjustments cover a range of eventualities. These can be broadly divided into four categories.

#### **Underspend**

This is where the actual costs in one quarter are lower than you forecast in your payment schedule. Where this is the case, we'll reduce the value of your next payment by this amount and will discuss this with you.

#### **Overspend**

This is where your actual costs for a period are higher than the related payment from us. In these situations, we'll need to discuss the reasons for this with you so that we can understand whether the overspend was due to simply underestimating your likely costs or because there is a more significant issue relating to the costs of the project.

#### **Deductions**

This is where we discover that some of your costs are ineligible, for example:

- You've not been able to provide evidence of certain costs, such as staff timesheets or receipts covering all items of expenditure
- Your staff recruitment is unsatisfactory because reference hasn't been made to ESF in your job adverts or the correct logo has not been used expenditure on other forms of publicity, such as websites or written documents, does not conform to our logo requirements
- Other forms of evidence relating to the delivery of the project have not been retained

How we make these deductions will depend on the extent of the issue. In most cases, we'll give you the opportunity to provide any incomplete information before making a deduction. Generally speaking, we'll look to recover the funding spent on ineligible items by reducing the value of your next payment to compensate for this.

### **Penalties**

We reserve the right to hold back a proportion of your next payment as a 'penalty' whilst you get your project back on track. A good example is where the performance against your targets is below expectations for a consistent period.

We may also withhold or temporarily reduce payments if correct documentation is not retained or submitted to us.

If you find an error identified on claims that have already been paid then you will need to follow the 'Self-Declared Adjustment' process; guidance is available in [Annex M](#).

### **Changes to your project**

It is possible that a situation may arise that will result in a change to your project. This might include:

- Changes to your primary or legally responsible contact information
- Changes to your partnership or the management structure of the project
- Changes to your target schedule
- Changes to your project outcomes
- Changes to your project budget
- Changes to the delivery of the project.

You will need to complete the "Project change request form" ([Annex Q](#)) to tell us about these changes and their impact.

We will expect you to notify the Project Delivery Animator as soon as you identify a situation that will result in a change to your project, before you complete the "Project change request form".

We'll need to agree these changes before you can proceed.

## **Project Outcomes & Results**

### **Where do the Outcomes and Results come from?**

The targets come from the Operational Programme for ESF in England, as agreed by the Managing Authority and the European Commission. Within this, the exact targets for CHART programme to achieve have been devised within the CHART

Local Development Strategy, in accordance with requirements from the South East LEP.

## ESF Outputs

Outputs for ESF relate to the personal situation of a 'participant' on the date that they join the project. For the CHART programme you will need to support participants who are either unemployed or economically inactive, you will also have specific outputs to support 'target groups' within the category of unemployed/ inactive, as these target groups have been identified as a key priority for CLLD interventions. These are:

- people aged over 50
- ethnic minority groups
- people with disabilities

ESF Output	
ESF CO 01	Participants that are unemployed including long-term unemployed
ESF CO-03	Participants that are inactive
ESF O4	Participants that are aged over 50
ESF CO5	Participants that are from ethnic minorities
ESF CO16	Participants that have disabilities

You'll also need to record the following outputs on participants, which do not relate to specific targets but must be recorded in quarterly claims in addition to the above:

ESF Outputs required to record on each participant (in addition to outputs above)	
ESF CO02	Long Term Unemployed
ESF CO06	Below the age of 25
ESF CO07	Above the age of 54
ESF CO08	Above 54 years of age who are unemployed, including long term unemployed , or inactive not in education or training
ESF CO09	With primary (ISCED 1) or lower secondary education (ISCED 2)
ESF CO10	With upper secondary (ISCED 3) or post-secondary education (ISCED 4)

ESF CO11	With tertiary education (ISCED5 to 8)
ESF CO12	Participants who live in jobless households
ESF CO13	Participants who live in jobless households with dependent children
ESF CO14	Participants who live in a single adult household with dependent children
ESF CO17	Other disadvantaged

## ESF Results

All ESF projects will have targets relating to the number of people leaving the project:

- who move into education or training
- who move into employment, including self-employment
- who were economically inactive when joining the project and move into job-search.

	ESF Results
ESF CR02	Participants in education or training on leaving
ESF CR04	Unemployed participants in employment, including self-employment on leaving
R2	Inactive participants into employment or job search on leaving

You'll also need to record the following results on participants, which do not relate to specific targets but must be recorded in quarterly claims in addition to the above:

ESF Results required to record on each participant ( in addition to results above)	
ESF CR01	<p><b>Inactive participants engaged in job-searching upon leaving</b></p> <p>Evidence required:</p> <ul style="list-style-type: none"> <li>• A declaration from the participant that they are engaged in job searching with a description of what steps they have taken to search for a job, together with evidence of job-search such as:</li> <li>• A CV and a list of jobs applied for</li> <li>• A letter or document from Jobcentre Plus or the Department for Work and Pensions that confirms the individual is registered unemployed</li> <li>• A letter or document from a government agency showing the person has newly engaged with mainstream support</li> </ul>

	<p>and is working with them to apply for jobs</p> <ul style="list-style-type: none"> <li>• A bank statement showing benefit payments</li> </ul> <p>Note that the date of any documentation must be within four weeks of the leaving date of the participant.</p>
ESF CR03	<p><b>Participants gaining a qualification upon leaving</b></p> <p>Evidence required:</p> <ul style="list-style-type: none"> <li>• A qualification certificate or a letter from an awarding body issued to the individual.</li> </ul> <p>Note that the date of any qualification must be within four weeks of the leaving date of the participant.</p>
ESF CR05	<p><b>Disadvantaged participants engaged in job searching , in education / training, gaining a qualification, or in employment, including self-employment, upon leaving</b></p> <p>Evidence required if job searching:</p> <ul style="list-style-type: none"> <li>• As CR01 above</li> </ul> <p>Evidence required if moving into education and training:</p> <ul style="list-style-type: none"> <li>• A letter or document from the school, college, university or learning provider demonstrating that the participant has formally registered and started the education or training.</li> </ul> <p>Evidence required if gaining a qualification:</p> <ul style="list-style-type: none"> <li>• As CR03 above</li> </ul> <p>Evidence required if in employment/ self-employment:</p> <ul style="list-style-type: none"> <li>• As CR06 below</li> </ul> <p>All must be within four weeks of the leaving date of the participant.</p>
ESF CR06	<p>Participants in employment, including self-employment, six months after leaving</p> <p>Evidence required (self-employment):</p> <ul style="list-style-type: none"> <li>• A letter or document showing that the business activity is registered with HMRC for tax, VAT or National Insurance purposes.</li> <li>• A record showing that the business activity is active and operating, such as a bank statement or a lease/purchase agreement on equipment and premises.</li> <li>• If registered with Companies House, a record listing the participant as a company director.</li> </ul> <p>Note that the date of starting self-employment must be within four weeks of the leaving date of the participant.</p> <p>Evidence required (employment):</p> <ul style="list-style-type: none"> <li>• A letter or document from the employer confirming that the</li> </ul>

	<p>participant has started their new job.</p> <ul style="list-style-type: none"> <li>• A payslip.</li> <li>• A signed contract of employment.</li> </ul> <p>Note that the date of starting employment must be within four weeks of the leaving date of the participant.</p>
ESF CR07	Participants with an improved labour market situation six months after leaving.

You will need to provide evidence to support these results within the “Participant File” ([Annex H](#)).

**Top Tip:** You will need to certify that all evidence provided is a true and original copy of the original document.

### What are the definitions for each ESF output/ result?

Full definitions for each output and result can be found within [Annex G](#). This will give you further guidance on the outputs, for example whether participants are classed as ‘unemployed’ or ‘inactive’.

### Notes on counting Outputs and Results

A single participant who is a member of more than one ‘target group’ can be recorded within multiple output groups, as in the example below.

**Scenario 1:** ‘Participant A1’ is an Unemployed 54 year old who has a disability. When you start to work with Participant A, this work will therefore contribute to the following Outputs:

ESF Output	
ESF CO 01	Participants that are unemployed including long-term unemployed
ESF O4	Participants that are aged over 50
ESF CO16	Participants that have disabilities

**Scenario 2:** ‘Participant B1’ is an Unemployed 25 year old. When you start to work with Participant B1, this work will therefore contribute to the following Outputs:

ESF Output	
ESF CO 01	Participants that are unemployed including long-term unemployed

Please note, only one Result can be claimed per participant.

## Scheduling Outcomes and results

During the set-up of your grant funding agreement, we'll need you to complete a project outcome/ result schedule, which will form part of your grant funding agreement ([Annex L](#)). Each quarter, we'll review your progress against your forecasts and alongside your payment schedule declared expenditure.

## Managing Performance

During the course of our monitoring, we will review your progress towards achieving the project/result outcomes. We will ask you to update your project outcome schedule throughout the delivery of the project. This ensures any outcomes that were not met in one quarter are redistributed throughout the project.

When we compare your forecast and actual figures, we'll make a judgement on how well your project is performing. For any given output, we'll apply the following benchmarks:

<b>Above 120%</b>	<b>Over-performing</b>
<b>100 – 120%</b>	<b>Performing</b>
<b>90 – 100%</b>	<b>Satisfactory</b>
<b>70 – 90%</b>	<b>Underperforming</b>
<b>Below 70%</b>	<b>Unsatisfactory</b>

Don't wait until you are underperforming or unsatisfactory to attempt to resolve an issue. We would expect you to notify the CHART Project Delivery Animator as soon as you are aware of potential underperformance issues so that we can work with you to get you back on track and avoid penalties.

### Underperformance

If underperformance is identified then the CHART programme team will work with you to identify steps to correct the underperformance. You'll need to identify the causes for underperformance and develop an action plan for getting back on track.

There may be occasions where the extent of the under-performance is such that the ability of the project to meet the project outcomes is compromised. Our Project Delivery Animator will do all they can to provide guidance, including sharing learning from other projects to get you back on track. However if the underperformance is consistent and persistent then your grant may be reduced in line with the underperformance methodology in [Annex E](#), in exceptional circumstances the grant will be withdrawn.

### Match Funding

You will need to be able to evidence that you have public sector match available for 50% of total programme costs. At least 10% of this must be cash (this can include paid staff time).

### Flat Rate Indirect Costs

You can only include indirect costs at a rate of 40%. See [Annex E](#) for details. The CHART Programme Team can advise you as to which methodology is most suited to your project.

**How this works:** Instead of providing the CHART Programme Team with a project budget with itemised direct costs (eg, £40 per quarter on Childcare; £30 on interview clothes), the direct costs can be paid out more flexibly using the “pot” of money created from the 40% indirect costs. This reduces the need for project change requests.

A list of items that the applicant intends to spend direct costs on will need to be supplied alongside the budget as an annex so that the team can check eligibility.

The Programme Team will still need to check that all direct costs paid for in this way are eligible and evidence will need to be provided.

### Avoiding Double Counting

It is important, that during the initial assessment of individuals you establish whether an individual has been supported by a CHART project. It's also best practice to keep in good dialogue with other CHART delivery organisations to limit the risk of double counting.

If an individual has already been supported by a CHART project, it is possible that they may be able to potentially earn a result through your Project as long as you are not delivering the same course. You should contact the CHART Programme Team for guidance if this situation arises.

The CHART Project Compliance and Support Officer will give each Participant a Unique Reference Number to prevent double counting.

**Scenario 1 (Double CHART project enrolment):** Participant C1 is signposted to both Project A and B at the same time and is eligible for both. Both projects contact the Compliance and Support Officer to register Participant C1. The Compliance and Support Officer notices the potential for double counting and contacts both projects to find a solution.

**Scenario 2 (Double ESF project enrolment):** Participant C2 is on a CHART funded project which is claiming the following outputs: over 50; disabled; BME and the result of moving from unemployed to employed (CR04). They are also on another ESF funded project which is claiming the following outputs: Female, ex offender and the following result: improve labour market situation 6 months after leaving (CR07).

In this scenario, Participant C2 can participate in both projects, but both projects need to be careful no double counting takes place. Both projects can enrol the participant as new, with all the usual entrant forms completed.

The projects can achieve a different result i.e. Project 1 achieves a qualification and Project 2 a job outcome, but under no circumstances can they claim the same result. In fact, if they do want to work with the same participants they would require a letter from both projects stating the same result would not be claimed.

**Scenario 3 (Multiple ESF provision on a single pathway):** Participant C3 is on a CHART project pathway. They will first be working on managing debt, personal budgeting and life skills, will move into careers advice and then into training. The local debt advice service and careers advice service are both ESFA funded. Can Participant C3 access these as part of their pathway?

In this scenario, the participant can participate in both projects, but both projects need to be careful no double counting takes place. Both projects can enrol the participant as new, with all the usual entrant forms completed.

The projects can achieve a different result i.e. Project 1 achieves a qualification and Project 2 a job outcome, but under no circumstances can they claim the same result. In fact, if they do want to work with the same participants they would require a letter from both projects stating the same result would not be claimed.

**Scenario 4 (Another ESF pathway needs to be completed first):** Participant C4 has signed up for a CHART project pathway, but would benefit most from completing another ESF funded pathway first.

In this scenario, the participant should complete the other ESF pathway first then complete registration for CHART activity afterwards, as long as the CHART funded project didn't immediately claim the Output but first referred the participant to the other project, then when the participant has completed the other ESF pathway they sign up for CHART (and CHART then claims the output and later the result).

### **Exceptions- ESF/ ERDF**

An individual **can** be supported by both ESF and ERDF CHART funded projects.

For example, an unemployed participant could be supported by a pre-employment project (ESF CHART funded) and then transition on to a 'self-employment' training course (ERDF CHART funded).

## **Participants**

### **Who is a Participant?**

A 'Participant' is the term used by ESF to describe an individual who directly benefits from ESF funding. Therefore, all individuals supported by CHART ESF projects are 'Participants'.

CHART participants must be:

- A resident of the CHART area (see [Annex A](#) LSOA postcodes)
- legally resident in the UK and able to take paid employment in a European Union member state.
- unemployed or economically inactive
- Aged 25 and over

### **Refugees and Asylum Seekers**

CHART can fund activities with refugees but not normally with asylum seekers, as they are generally ineligible under ESF rules, as they are not usually allowed to work while their claims are being decided. However, where permission to work has been granted, asylum seekers can receive support from the project.

### **Initial Assessment**

Before enrolling a participant, you should undertake some form of initial assessment of the individual's circumstances, you'll need to consider:

- the personal circumstances of the participant, identifying how the ESF funded activity will be suitable and effective in addressing their needs;
- the particular barriers or challenges they face (relevant to the CHART programme objectives); and
- whether the participant qualifies for support from the CHART programme

### **The Participant File**

When you have established that the participant is eligible for CHART, you'll need to start a participant file, every participant has a file and this will be the main document for evidencing the participant's journey through your project.

You must also use the CHART Participant File templates to ensure that you are audit compliant. These can be found at [Annex H](#) and will be sent to you as part of your grant induction.

Note that these files will be reviewed at audit and visits or we may ask for sample participant files. If a participant file is found to be incomplete, inaccurate or insufficiently evidenced then that participant could be ineligible, which could affect your claim.

You'll need to complete all 4 sections of the file:

- Eligibility
- Progress
- Expenses
- Results

### **Personal Data**

Whilst you create each file you will be collecting, retaining as well as reporting on a range of personal information, you must therefore ensure that you follow the Data Protection Act 2018, further information can be found at the Information

Commissioners Office Website- <https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr/>

A GDPR self-assessment tool is included in [Annex O](#) to help you identify whether you have systems in place to correctly process personal data.

## Eligibility

You must obtain evidence that the person is eligible for CHART funding, before they can start the project:

- A resident of the CHART area (see Annex A LSOA postcodes)
- Legally resident in the UK and able to take paid employment in a European Union member state.
- Unemployed or economically inactive.

You'll use the participant entry form within the first section of the participant file to declare that you have checked, copied and retained documentation to prove that the participant is eligible for CHART.

**Remember:** You **must** see an original and retain a photocopy. This must be signed by a project staff member as a true copy and kept in the Participant file.

The following documents can be used as evidence:

Eligibility	Indicative list of supporting documents ( not exhaustive) (Only one item from list required)
Legally resident in the UK and able to take paid employment in a European Union member state.	<p>National Insurance number : either the plastic card or letter from HMRC (you must have the right to work or study in the UK to get a National Insurance Number)</p> <ul style="list-style-type: none"><li>• Full passport (EU Member)</li><li>• ID cards from citizens from other EU countries</li><li>• Full passport (not EU Member State):<ul style="list-style-type: none"><li>- Passport either endorsed 'indefinite leave to remain – proceed (settled status) or includes work or residency permits or visa stamps (unexpired) and all related conditions met</li><li>- Some non-EEA nationals have an Identity Card issued by the Home Office in place of a visa, confirming the individual's right to stay , work or study in the UK – these cards are acceptable</li></ul></li><li>• Letter from the UK Immigration and Nationality Directorate granting indefinite leave to remain (settled status)</li><li>• Birth / adoption certificate (EU Member State)</li><li>• Residency permits for foreign nationals (usually in a passport)</li><li>• Marriage/civil partnership certificate (if partner has legal right to live in the UK and this can be evidenced).</li></ul>

<p>Unemployed</p> <p><i>Adult long term unemployed : Aged 25 or more and out of work for a continuous period of at least 12 months.</i></p>	<p>People not in work ( Unemployed including long term unemployed and economically inactive)</p> <ul style="list-style-type: none"> <li>• DWP/Jobcentre Plus benefits decision notification letter – new claims award / decision or change of circumstances decision letter.</li> <li>• Written confirmation / referral from DWP/Jobcentre Plus or a referral from Careers Service or similar.</li> <li>• Where an individual is not engaged with DWP/Jobcentre Plus: written confirmation from a relevant third party or government agency- for example a careers service. Or an NGO/ VCS organisation that has been assisting the individual and so has an understanding of their current circumstances (Note that this must be independent of from your project team). As an alternative to written confirmation, sight of original case notes and support records are acceptable. Photocopies must be suitably redacted to remove sensitive personal data or if photocopies are inappropriate or not permitted, a written agreement that HBC/DWP/EC auditors can access the original records on request.</li> </ul>
<p>Inactive</p> <p>Economic inactivity refers to people who are neither in employment nor 'actively seeking work' (unemployed). We understand that trying to obtain evidence to 'prove a negative' is likely to be difficult.</p>	<ul style="list-style-type: none"> <li>• Evidence of being receipt of new-style ESA (such as a correspondence from DWP) would be acceptable evidence of inactivity.</li> <li>• A 3rd party referral may also be acceptable as evidence if it is consistent with requirements.</li> <li>• Self-certification is the minimum acceptable evidence requirement for economic inactivity. It is important that any self-certified evidence is provided in-line with the current 4-step verification methodology and self-certification guidelines.</li> <li>• Projects should try to obtain additional evidence in-line with hierarchy / methodology requirements set out in this guidance. So, for example, alternative evidence could be sought at stage 3. This could include making use of relevant participant 'lifestyle' information gathered at the initial assessment / recruitment stage which details and explains the individual's circumstances including his/her economic inactivity.</li> <li>• In addition, at stage 3 of the methodology, projects can use correspondence issued by DWP in relation to Universal Credit as well as Universal Credit personal Account screenshot information. Although, in certain circumstances, this correspondence may not be able to offer 100% positive proof of labour market status it will always be preferable to self- certificated evidence alone. Such UC evidence can also be sought after the participant has started ESF provision – to help 'bolster' /</li> </ul>

	<p>strengthen any self-certified evidence.</p> <ul style="list-style-type: none"> <li>• For “legacy” or “old style” benefits: DWP/Jobcentre Plus benefits decision notification letter- Employment Support Allowance (ESA), Incapacity Benefit (IB) or Income Support (IS)</li> </ul>
CHART Area	<ul style="list-style-type: none"> <li>• Letter / confirmation from home owner (family / lodging)</li> <li>• Full driving licence (EU)</li> <li>• Recent statement from bank / building society / credit card company / credit union</li> <li>• Evidence of registration on electoral roll</li> <li>• Benefits notification letter</li> <li>• Recent utility bill or council tax demand / correspondence</li> <li>• Tenancy agreement / documents</li> <li>• Mortgage statement / correspondence</li> <li>• HMRC correspondence</li> <li>• Rent card / statement</li> <li>• Solicitor’s correspondence</li> </ul>
Age (over 25)	<ul style="list-style-type: none"> <li>• Birth certificate</li> <li>• Full or provisional driving licence (must be photo card)</li> <li>• Full passport</li> <li>• National Identity Card (EU)</li> <li>• Pension statement (if date of birth is quoted)</li> <li>• Evidence that in receipt of age-related state benefits</li> <li>• Firearms certificate / Shotgun licence</li> </ul>

## Unemployed or Economically Inactive

### Unemployed

If an individual is ‘unemployed’ then they are not working but they should be available for work and actively seeking work. They will usually be registered unemployed and in receipt of unemployment benefit.

### Economically Inactive

Economic inactivity refers to people who are neither in employment nor ‘actively seeking work’ (unemployed). We understand that trying to obtain evidence to ‘prove a negative’ is likely to be difficult.

They may be in receipt of benefits (such as Incapacity Benefit or Employment and Support Allowance) and could also be in training or education of some kind. A participant is inactive if they are:

- disabled or a full-time carer
- receiving Employment Support Allowance (ESA), Incapacity Benefit (IB) or Income Support (IS)

- not in receipt of benefits
- a Universal Credit claimant who is placed in the Work Preparation Requirement or Work Focused Interview Requirement conditionality groups
- On full-time parental leave (understood as absences from work to bring up a child of young age for a period which does not fall under the classification or maternity or paternity leave), unless they are already registered as unemployed

### **Is someone eligible for CHART if they work under 16 hours a week?**

No, within ESF a person cannot be in any form of employment, even for just 1 hour a week, regardless of whether they are receiving unemployment benefits.

### **‘Zero hours’ contracts**

Some participants on zero hours contracts will be classed as unemployed if they are not working on the date of their registration.

**Scenario:** Participant D is on a ‘zero hours’ contract. They worked 1 hour last week, but have not worked any hours this week.

Participant D is classed as unemployed, unless they are actually working on the day they join. However, this is difficult to verify and you may wish to look at their current working week using the four step verification process.

## **Participant’s Progress**

Within the participant file, you’ll need to capture the progress of each individual.

This should be through the following

- Attendance of project- records of sessions attended
- Development- recording the participants journey/ development through the project activity
- Activity- type of activities/ sessions attended

## **Participant Results**

A Participant ‘leaves’ the project when they have finished their final activity. You’ll need to complete the ‘Results’ section of the participants file, this is where you capture whether the individual is now in education/ employment/ self-employment or searching for work (inactive only).

You’ll have 4 weeks to record the result from the time the individual ends the final activity to when they transition to a result; anything over 4 weeks will be ineligible to claim against your target results.

**Scenario 1:** Participant G1 completes their final activity on 1 August 2019. Participant G1 will be starting a new job with a local restaurant ten days after this on 11 August 2019. Participant G1 starts work on 11 August and evidence of this is filed by their Key Worker. The project can claim Participant G1’s employment as a result.

**Scenario 2:** Participant H1 completes their final activity on 1 June 2019. They have enrolled in an Engineering Level 2 course at a local college. This course starts on 9 September 2019, over eight weeks after the final activity on the project. The project cannot claim Participant H1's course as a result.

**Some things to consider:**

- Not all Participants will gain a 'result' and the results targets for the CHART Programme reflect this.
- Think about when your Participant's final activity takes place and what it will be.

Further info on CHART Result Indicators can be found at [Annex G](#).

**Top tip**

After a participant leaves the project, it will become more difficult to request information from them. For this reason, make sure you have the evidence to prove progression and results **before** the participant has finished their final activity/session.

**Evidence required for Results**

You'll need to collect evidence to prove that the result has been achieved.

Result	Evidence
Unemployed/ Inactive participant in education or training on leaving	<ul style="list-style-type: none"> <li>• Letter or document from the school, college, university or learning provider showing that the participant has registered and started the education or training.</li> <li>• Letter / template from educational / training institution</li> <li>• Signed referral / template from recognised agency / service who can reasonably be considered to have an accurate knowledge of the participants circumstances (e.g. local authority)</li> </ul> <p><i>Note that the start of education or training must be within four weeks of the leaving date of the participant.</i></p>
Unemployed participant in employment, including self-employment on leaving  <i>A person is "employed" if they are "working for pay"</i>	<p>Employment</p> <ul style="list-style-type: none"> <li>• A letter, template form or email from the employer confirming that the participant has started their new job.</li> <li>• A payslip.</li> <li>• A signed contract of employment.</li> </ul> <p>Self-employment</p> <ul style="list-style-type: none"> <li>• A letter or document showing that the business activity is registered with HMRC for tax, VAT or National Insurance purposes.</li> <li>• Bank statement for a business account</li> </ul>

	<ul style="list-style-type: none"> <li>• If registered with Companies House, a record listing the participant as a company director.</li> </ul> <p><i>Note that the date of starting employment/ self-employment must be within four weeks of the leaving date of the participant.</i></p>
<p>Inactive participant into employment or job search on leaving</p> <p><i>A person is “employed” if they are “working for pay”</i></p>	<p>Employment</p> <ul style="list-style-type: none"> <li>• A letter, template form or email from the employer confirming that the participant has started their new job.</li> <li>• A payslip.</li> <li>• A signed contract of employment.</li> </ul> <p>Job Search</p> <ul style="list-style-type: none"> <li>• Award letter / notification detailing Jobseeker’s Allowance / New style JSA</li> <li>• Copy of the individual’s bank statement showing benefit payments</li> <li>• Signed referral from DWP</li> <li>• ES40 (Jobseekers card) or My Work Plan demonstrating current status</li> <li>• Signed referral / template from recognised agency / service who can reasonably be considered to have an accurate knowledge of the participants circumstances (e.g. local authority, public body, or organisation receiving public funding). <ul style="list-style-type: none"> <li>○ This cannot be from the organisation administering the project the participant is claiming a result for.</li> </ul> </li> </ul> <p><i>Note that this result must be recorded within four weeks of the leaving date of the participant.</i></p>

## Double Counting

There may be an instance when a CHART participant is supported by more than one ESF CHART delivery organisation, which would affect the programmes’ overall targets and could also affect your own outputs and results. Under ESF guidelines, CHART funds must ‘add value’ and not duplicate therefore, a participant can only be supported by one organisation and be counted as one set of outputs and one result.

If double funding does occur then the output targets will be retained by the ‘first delivery organisation’. The ‘first delivery organisation’ would be the organisation which first enrolled/ supported the participant.

The 'second delivery organisation' will be allowed to claim a 'new' result if they have already supported the individual, this result must be different from the result claimed by the 'first delivery organisation'. Put simply, a Participant can potentially claim a result with both organisations, but they must be delivering a different course or activity.

## **Partners**

### **Partnerships**

CHART encourages organisations to work in partnership to create projects that are large in scale and impact that make a meaningful and measurable impact within the CHART area.

### **What is a lead partner?**

If you are submitting a joint application with partners, you will need to identify one (1) lead partner. This partner will be responsible for the whole project, including:

- Submitting the application
- Signing the grant agreement on behalf of all partners
- Submitting monitoring information and grant claims to the Accountable Body
- Ensuring the delivery of all project activities, including those delivered by other partners
- Receiving ESIF funding from the Accountable Body
- Liability for any repayments, including funding related to the activity of partners
- Distribute funding once grants claims have been paid by the Accountable Body

### **What is a delivery partner?**

A delivery partner is an organisation:

- That delivers part of the project;
- Defrays expenditure linked to delivering project activity that is subsequently included in the project's grant claims;
- Receives ESIF funding via the lead partner (i.e. the applicant) as a contribution to the costs it has incurred.

Delivery partners may provide match funding, e.g. the balance between the amount they spend delivering part of the project and the amount of ESIF funding they receive.

An organisation is not a delivery partner if they:

- Contribute match funding and do not deliver any part of the project
- Are an organisation that is contracted or sub-contracted to deliver any part of the project (ESIF procurement regulations must be followed here)

### **What is a strategic partner?**

A strategic partner is an organisation:

- That does not deliver any part of the project;
- That does not defray expenditure linked to delivering project activity;

Strategic partners may provide match funding, e.g. a loan or award to cashflow the project.

An organisation is not a strategic partner if they:

- Deliver any part of the project
- Are an organisation that is contracted or sub-contracted to deliver any part of the project (ESIF procurement regulations must be followed here)

### **What is a sub-contractor?**

A sub-contractor is an organisation or individual:

- That is commissioned through the procurement process to deliver any part of the project (ESIF procurement regulations must be followed here)

Sub-contractors cannot provide match funding. See section on “procurement” for more details.

An organisation is not a sub-contractor if they:

- Do not deliver any part of the project;
- Are a delivery partner as detailed above.

### **Partnership agreements**

Partnerships will need be a legally constituted partnership or have a project-specific partnership agreement in place. This should clearly state the roles and responsibilities of each partner, including that of the lead partner as well as the arrangements for how and when the lead partner will distribute funding once grants claims have been paid by the Accountable Body.

### **Payments to partners**

All payments to Lead Partners are made in arrears following the agreed payment schedule, assuming all payment conditions are met.

The Lead Partner is then responsible for distributing funding to partners. This should form part of the partnership agreement. How, when and under what conditions this will take place should form part of the Partnership Agreement.

Situations may arise where a partner has not provided necessary documentation, such as evidence of expenditure or details of progress towards outputs or result targets. It is perfectly permissible to mirror our own arrangements s outlined in the Grant Funding Agreement and Underperformance Policy when dealing with these circumstances. For example, if a partner consistently under-performs, it would reasonable to withhold or reduce payments until corrective action has been taken.

## **Cost and Expenditure**

### **Detailed Granular budget breakdown**

You are expected to provide a granular breakdown of the budget within your application for funding so that the costs associated with each item of expenditure are clear.

For example, within the Salary category, you are expected to itemise each post providing details on whether or not it is a full or part time post, job title, basic salary, NI costs, pension contributions etc. Any marketing and publicity activities should be broken down into sub-activities including social media, advertisements, events etc.

For example:

Budget Line	Item title	Description of Expenditure
Marketing and publicity	Advertisements	50x lamp post banner posters based on quotes received 30 April 2018.
		5,000 units of 5"x8" flyers advertising the project including date, time, location, contact details. To be delivered to targeted locations in the area including [named partner organisations]. Estimated cost based on similar campaign conducted 20-30 March 2018.
Marketing and publicity	Social media	Social media marketing of the project including case studies and project examples.

The narrative should also include a statement covering the level of certainty in the costs e.g. the extent that costs are verified by benchmarking, previous experience and or third party review. For salaries, you will need to confirm how you have graded the salaries and/ or arrived at the salary (if applicable relevant market rate benchmarks which have been applied).

Applicants should send their own attachment providing the detailed itemised costs using the template supplied with the [CHART Full Application Form](#). Applicants should ensure that their cost category totals and, quarterly and yearly totals mirror the totals provided in the financial tables and are mindful of any rounding issues which could lead to inconsistencies. All costs should be provided to the nearest pound sterling.

You also need to provide a narrative detailing the key assumptions used in the development of your budget and the research completed to prepare it. You need to outline how you have arrived at each cost within the budget and provide line by line detail as to what each cost item is and why it is necessary to fulfil the Project.

**Remember:**

- European Structural Investment Funds operates by calendar years (January-December)
- Be as realistic as possible about when expenditure will occur and be defrayed– European Structural Investment Funds operates on the basis of defrayed expenditure i.e. when a payment leaves the projects bank account, not when an invoice or cheque has been written/sent.
- Consider carefully the time requirement to get the project started – will it be necessary to factor in time for recruitment/procurement/formalising the partnership? Most projects spend very little money in their first couple of quarters.
- European Structural Investment Funds is reimbursed upon submission of a claim. The applicant must ensure there is sufficient cash flow to manage the project.
- Include sufficient resources to administer and manage your project
- Retention (normally 10%) is held back at the end of every CHART Project whilst the final claim and final verifications are carried out.

## Eligible costs

Please see [Annex I](#) for a list of eligible costs. These costs will be reflected in the categories you are able to select in the Granular Breakdown Template.

Additional information on eligible costs can be found in the Eligibility Rules for ESF 2014- 2020

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/626878/ESF\\_national\\_eligibility\\_rules.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/626878/ESF_national_eligibility_rules.pdf)

## Participant costs

Although eligible, we expect these to be limited to costs that are absolutely essential to the delivery of the project. For each individual allowance or incentive, we need to understand how it will:

- represent value for money
- be based on comparable, local costs
- affect the level of benefits the participant may be entitled to, which you'll need to discuss with the local Jobcentre Plus office
- conform to HM Revenue and Customs rules on taxable income.

You'll need to provide the following forms of evidence:

- a written explanation of the reasons for offering this allowance and how this represents good value for money
- a record of the advice received from Jobcentre Plus, HM Revenue and Customs and other bodies concerning each individual participant's existing allowances
- financial records showing the participant, date and amount paid, including a signed declaration
- a record of their participation that fulfils the terms of the allowance or incentive.

- Each time an expense, allowance or incentive is given, you will need to complete a participant expense, allowance and incentive form. This must be kept in their participant file.

## Keeping Timesheets

Staff working only some of their time on the project must record the activities and tasks associated with their involvement using a timesheet. This includes members of senior management staff.

The timesheet must show their name and role together with a line-by-line description of:

- each activity or task
- the date it was carried out
- the start and finish time, rounded to the nearest 15 minutes.

The timesheet must be kept as evidence with the payslips and payroll information for these members of staff.

‘On-costs’ include things like National Insurance and pension contributions and taxable incentives that are linked to pay.

It is suggested, although not required, that you use the timesheet template provided on the CHART website.

*Staff that spend all of their time working on the project do not need to keep timesheets, though the other evidence must still be provided.*

## Ensure you use the 1720 hourly rate

Use of the 1720 hours is mandatory and set out in the ESIF Regulation. 1720 hours assumes a working week of 33 hours – it therefore overcompensates by between 4 and 9 hours depending on an organisations standard working week to take account of annual leave costs.

There is one calculation used to work out hourly rates:

Hourly staff cost =

Latest documented annual gross employment costs

---

1720

## Indirect Costs

Please see [Annex I](#) for a list of indirect costs. These costs will be reflected in the categories you are able to select in the Granular Breakdown Template.

Additional information on eligible costs can be found in the Eligibility Rules for ESF 2014- 2020

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/626878/ESF\\_national\\_eligibility\\_rules.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/626878/ESF_national_eligibility_rules.pdf)

## Procurement costs

Procurement costs will usually be considered a Direct Cost (See Annex I).

## Management and Control

All ESF expenditure should be kept separate from the other functions of your organisation, using a computerised system with separate cost centres and codes. The same applies to your partner organisations.

You will need to keep records of:

- Expenditure under standard cost headings (within Granular Breakdown at application stage) that can be disaggregated into individual transactions upon request;
- Evidence of defrayal (payment) including the date that the item was defrayed;
- Originals must be kept for any purchase orders or contracts; receipts or invoices; bank statements; accounting records
- If claiming staff costs: job descriptions; contracts of employment; payroll records and bank statements.
- If claiming apportioned staff costs: staff timesheets that record time spent working on the project and time spent on non-project activity and records documenting how the gross employment costs used to calculate the hourly rate(s) has been calculated
- Verification records for any indirect costs;
- Documentation showing that third party match is eligible and has been received

If you have any questions or concerns about the financial systems you or your partners have in place to collect this data, please contact the CHART Programme Team.

### Outputs and results

You will need to keep records evidencing your outputs. Without these, payments cannot be made even when all expenditure has been defrayed.

Which outputs you will be delivering against and when you will do this will have been agreed with you during the application process. Projects that consistently fail to deliver against agreed outputs may be penalised in line with the Underperformance Methodology, so good record keeping is essential to avoid this.

The best way to make sure you have all the necessary information is to use the CHART Participant File template in Annex H. You will need to keep originals of these documents and have robust systems in place to guarantee their security.

The Accountable Body, the Managing Authority or European Auditors can and will ask for these documents at any time.

### Procurement

You must keep evidence of all procurement activity that takes place as part of the project. It is important that procurement is not only compliant, but that you have evidence to show that it was compliant.

You will need to keep records of all quotes, tenders and procurement practices including:

- The rationale for the chosen procurement method
- Proof of advertising and contract notices, quotations or tenders received,
- Proof of the scoring methodology used for selecting the successful candidate
- The notifications sent to successful and unsuccessful bidders.

This will include details of all preparatory work prior to the procurement process and the delivery/use of the procured service and goods.

Because of this, we suggest that East Sussex Procurement Hub is used to procure contracts of £25,000 and above.

If you have any questions or concerns about your procurement systems or record keeping, please contact the CHART Programme Team.

For more information, see section on “procurement” within this Handbook.

## **Publicity**

You will need to be able to provide evidence of any publicity you produce, including evidence that it met the publicity rules for ESF including the correct use of the logo and the required text. This will include retaining copies of any pre-releases, posters or marketing activity and evidence that billboards and plaques were in place for eligible capital Projects.

The CHART Programme Team will also require evidence that the CHART logo was used correctly on publicity materials and that reference to CHART was made in the text of any press release or other relevant publicity material.

See [Annex K](#) “Publicity” for more details on the type of publicity you will be expected to produce as part of your project.

## **State Aid**

State Aid updates should be recorded within your Progress report. You will also be responsible for keeping detailed State Aid records.

If you or your participants/ enterprises are in receipt of State Aid through CHART you will need to be able to evidence that you are compliant with State Aid regulations and you will need to follow the reporting requirements for either De Minimis or GBER:

<b>De Minimis</b>	<b>GBER</b>
<ul style="list-style-type: none"><li>• Grant recipients need to report on funding received under the De Minimis exemption</li><li>• Report on any beneficiaries of their</li></ul>	<ul style="list-style-type: none"><li>• Grant recipients will need to report on funding received and how they have allocated this within their GBER scheme –</li></ul>

<p>project that are receiving de Minimis aid – and keep records of this.</p> <p><i>This information will need to be kept for <b>10 years</b>, by the accountable body (as a public body) and for <b>3 years</b> by the grant recipient.</i></p>	<ul style="list-style-type: none"> <li>Grant recipients will need to report on funding received, how they have allocated across exemptions they are using, the level and the source of funding</li> </ul> <p><i>Detailed records will be kept by both the grant recipient and the Accountable Body as set out by the GBER scheme for <b>10 years</b>.</i></p> <p><i>Any scheme changes will be updated as per the current GBER implementation guidance - currently any changes will need to be notified to the commission using SANI.</i></p>
---	---

For more detailed information on State Aid, please see the “State Aid” section of this handbook.

## Retaining evidence

You will have to collect and keep **all** your project documentation for a number of years after the project finished. The date can be different for different projects and will be included in your Grant Funding Agreement.

If you are unable to keep all the records for that long, let us know and we will help you to make alternative arrangements.

We need to keep all the documentation as European auditors may audit projects many years after they have finished. Therefore, it is really important that all the documents are organised in an orderly and easy to follow manner. You will need to demonstrate that your system meets these requirements to the CHART Programme Team.

These are the types of documents you will have to keep (this list is not exhaustive and only provides examples of the most typical documents; not all of them may be relevant to your project):

- Financial documents e.g. invoices, receipts, bank statements, cheque stubs, cash books, salary and payroll records;
- Output documents e.g. beneficiary and output forms, evidence collected from participants to confirm they are eligible for support from your project;
- Evidence that you procured goods and services in a fair and transparent way (e.g. advertising, quotes, tenders, scoring etc.)
- Match funding e.g. letters from other funders, grant agreements from other funders, bank statements showing funding received;
- Publicity e.g. photos, leaflets, posters, press releases, press articles, screen shots of websites etc.;
- Evidence of what you did to promote equal opportunities and environmental sustainability;

- Evidence that State Aid rules have been met e.g. declarations from businesses, letters issued to businesses;
- Grant Agreement with us, copies of all the claims and forms submitted to us.

Ideally, you need to keep originals of all documents. If it is not possible, you can keep copies but they need to be certified as a true copy of the original. In order to do so, write the following statement on the copy:

*I certify that this is a true copy of the original document.*

*Signed:*

*Date:*

*Name and surname:*

*Position in the organisation:*

*Name of the organisation:*

Electronic documents are acceptable as evidence. They can be:

- scans of original documents (they will need to be certified as true copies – as explained above) or;
- documents that exist in electronic version only e.g. a spreadsheet with a project budget.

The computer system on which electronic versions are kept has to be secure, reliable and meet national legal requirements. Equipment and software needed to access these documents also has to be kept. Electronic documents have to be kept for as long as the paper documents.

For more information, see European Regional Development Fund: Guidance on Documentation Retention Including Electronic Data Exchange for 2014-20 ESF Projects

<https://www.gov.uk/government/publications/european-structural-and-investment-funds-document-retention>

## State Aid

State Aid is any advantage granted by public authorities through state resources on a selective basis to any organisations that could potentially distort competition and trade in the European Union (EU).

The most common forms of state aid include grants, loans, tax breaks and the use or sale of a state asset for free or at less than market price.

State Aid rules are only relevant to organisations that are involved in commercial activities, known as an “undertaking”, essentially bringing good and/ or services to market. They could be businesses, charities, public authorities and even other non-profit making bodies - if they are trading.

Support provided to individuals is not State Aid, and therefore most, if not all, Work Package 4 projects will be exempt. This is because the funding will “flow through” to the individuals who are participating in your project.

During the application process, you will be asked to apply the State Aid test to yourself, partners and beneficiaries of your project so that you know whether State Aid applies. You can do this using the State Aid Checklist in [Annex S](#).

If State Aid does not apply, you will need to be able to clearly explain why this is the case in a clear and justified way.

In principle, State Aid is not allowed in the European Union. However, some state aid is beneficial to the economy and supports growth and other policy objectives. State aid can be given to support a wide variety of activities including research and development, environmental protection and aid for small to medium-sized businesses. The state aid rules allow for good aid, which is necessary to deliver growth and other important objectives.

State Aid can be given legally by:

- using one of a set of pre-approved EU mechanisms for state aid,
- by getting approval for the particular scheme from the EU Commission

The pre-approved schemes below are examples only have been selected on the basis that they will be relevant to most projects applying for funding under Work Package 3 and 4. However this is not an exhaustive list and has only a minimal level of detail, therefore the CHART Programme Team would recommend that specialist advice is sought in most cases.

Please note that De Minimis should be used only as a last resort if the project is below the threshold and no General Block Exemption Regulation (GBER) applies.

Scheme name	Legal basis	The main rules and requirements
Training Aid	Article 31 General Block Exemption Regulation 2014 (Commission Regulation (EU) No 651/2014, OJ L187)	<ul style="list-style-type: none"> <li>• allows support to deliver training including;</li> <li>• trainers personnel costs (for time participating in training);</li> <li>• trainer and trainee operating costs (excludes accommodation);</li> <li>• advisory service costs linked to training project;</li> <li>• trainees personnel costs for the time they participate in training</li> </ul>

Aid for the recruitment of disadvantaged workers	Article 32 General Block Exemption Regulation 2014 (Commission Regulation (EU) No 651/2014, OJ L187)	<ul style="list-style-type: none"> <li>• The eligible costs shall be the wage costs over a maximum period of 12 months following recruitment of a disadvantaged worker.</li> <li>• Where the worker concerned is a severely disadvantaged worker, eligible costs shall be the wage costs over a maximum period of 24 months following recruitment.</li> <li>• Up to 50% of eligible costs</li> </ul>
Aid for compensating the additional costs of employing workers with disabilities	Article 34 General Block Exemption Regulation 2014 (Commission Regulation (EU) No 651/2014, OJ L187)	<ul style="list-style-type: none"> <li>• Costs of adapting the premises;</li> <li>• Costs of employing staff solely for time spent on the assistance of the workers with disabilities and of training such staff to assist workers with disabilities;</li> <li>• Costs of adapting or acquiring equipment</li> <li>• Costs directly linked to transport of workers with disabilities to the working place and for work related activities;</li> <li>• Wage costs for the hours spent by a worker with disabilities on rehabilitation</li> <li>• Up to 100% of eligible costs</li> </ul>
Aid for compensating the costs of assistance provided to disadvantaged workers	Article 35 General Block Exemption Regulation 2014 (Commission Regulation (EU) No 651/2014, OJ L187)	<ul style="list-style-type: none"> <li>• Employing staff solely for time spent on the assistance of the disadvantaged workers over a maximum period of 12 months following recruitment of a disadvantaged worker or over a maximum period of 24 months following recruitment of a severely disadvantaged worker;</li> <li>• Of training such staff to assist disadvantaged workers.</li> </ul>

		<ul style="list-style-type: none"> <li>Up to 50% of eligible costs</li> </ul>
De Minimis	De Minimis Regulation (Commission Regulation (EU) No 1407/2013, OJ L 352/1)	<ul style="list-style-type: none"> <li>allows up to €200,000 of support to small and medium enterprises (SMEs) provided in a rolling 3 year period (the current financial year + the two previous financial years);</li> <li>- SMEs are obliged to keep record of all De Minimis support they have received from different sources;</li> <li>- you must obtain a declaration from the SME that seeks support from you regarding how much De Minimis aid they have received within the current financial year and the two previous years;</li> <li>before you start your support for the given SME, you must calculate its value and check if it is not going to bring the SMEs above the €200,000 ceiling;</li> <li>you must inform the SME on the value of your support;</li> <li>you must document all the stages of this process and keep evidence;</li> <li>De Minimis should be used as a last resort – if no other mechanism is appropriate to your project</li> </ul>

We will support you in complying with the requirements of your chosen scheme. However, you need to be aware that you will be responsible for complying with the rules and requirements of the scheme identified for your project, including registration and declarations and ensuring the appropriate evidence is available to match this. Failure to provide evidence that you have done so may result in financial penalties.

State Aid errors can lead to European Structural Investment Funds expenditure being deemed to be ineligible. It is vital that European Union State Aid Regulations are fully met at all stages of the project. European Structural Investment Funds operate within an audit and verification framework that places particular emphasis on compliance with European Union regulations.

You may wish to refer to the European Commission's "Notion of State Aid" guidance and the Department for Communities and Local Government's European Regional Development Fund guidance on State Aid law available at <https://www.gov.uk/government/publications/european-structural-and-investment-funds-state-aid-documents>.

## Procurement

You will have to ensure and evidence that everything that you buy for the project (be it goods, services or works) has been purchased in a transparent and fair way and provides value for money.

The tendering procedure can be daunting to those who are not used to them. However, if you follow the guidance set out in this document and [Annex J](#), you will comply with the required procedures. If in any doubt, make use of the contacts identified in the relevant section below.

Procurement is a very complex area and auditors always check procurement records in great detail. Errors will result in financial penalties. Usually the penalties are between 5% and 25% of grant value in relation to the purchases in question, however in some cases they can be up to 100%. It is also vital that tendering procedures are rigorously observed to protect your organisation as following these procedures will minimise the risk of allegations of irregularity being made against the Council and individual officers and members.

CHART recommends that successful applicants use the East Sussex Procurement Hub (ESPH) to ensure that best practice is followed for tenders over £25,000 as it allows for specialist advice and guidance and a standardised, compliant procurement process.

East Sussex Procurement Hub:

[http://www.wealden.gov.uk/Wealden/Business/Tenders\\_and\\_Procurement/EastSussexProcurementHub/Procurement\\_ESPH.aspx?RD=True](http://www.wealden.gov.uk/Wealden/Business/Tenders_and_Procurement/EastSussexProcurementHub/Procurement_ESPH.aspx?RD=True)

Contact: [esph@wealden.gov.uk](mailto:esph@wealden.gov.uk)

The procurement table found in [Annex J](#) will help you to decide which procurement procedure to follow based on the value of your contract.

Robust and transparent procurement is required to ensure that Grant Recipients:

- Consider value for money;
- Maximise efficient use of public money;

- Maintain competitiveness and fairness across the European Union.

You will need to confirm at Full Application whether you intend to use procurement, list all planned contracts and demonstrate that the tenders will meet the requirements of ESIF procurement in line with ESIF National Procurements (ESIF-GN-1-001) (Section 15).

You will need to identify whether you are a “Contracting” or “Non-Contracting Authority” as different procurement regulations apply. If you are part of a partnership bid, the Lead Applicant will be responsible for Procurement as detailed in your Partnership Agreement.

- **Contracting Authorities** (eg: State, regional or local authorities) will need to ensure that they comply with Public Procurement Law requirements (Treaty Principles will be used for contracts below the OJEU thresholds).
- **Non-Contracting Authorities** (Private/ third sector) will need to ensure that they comply with National Rules for procurement.

You should then complete Section 1: Procurement structure, policy and planning of the checklist within the [Procurement Aide Memoire for Applicants and Grant Recipients](#), below:

Procurement /Evidence on file?	Y/N	To Note
<ul style="list-style-type: none"> <li>• Copy of Applicant/Grant Recipient's own Procurement Policy (1)including structure chart /job descriptions of those involved in the procurement policy (delegations of authority)</li> </ul>		<ul style="list-style-type: none"> <li>• ESF Regulations/ESF Procurement Law Guidelines should be incorporated into/reflected in Procurement Policy</li> <li>• Refer to Chapter 2 and 5 of the ESIF National Procurement Requirements</li> </ul>
<ul style="list-style-type: none"> <li>• Are you a Contracting Authority?</li> </ul>		<ul style="list-style-type: none"> <li>• Written confirmation on file to outline status – particularly where you feel you are not a Contracting Authority</li> <li>• Either within the definition of a “Contracting Authority” under regulation 2 (1)of the Public Contracts Regulations 2015 (PCR 2015)OR if outside of the scope, consider ‘Treaty Principles’</li> <li>• Type of Contracting Authority</li> </ul>
<ul style="list-style-type: none"> <li>• Procurement Plan</li> </ul>		<ul style="list-style-type: none"> <li>• Best practice is to outline each of the Procurements planned for your project, covering each of the key stages outlined in chapters 4 and 5 of the ESIF National Procurement</li> </ul>

		<p>Requirements.</p> <ul style="list-style-type: none"> <li>• Include timescales for each stage of the process and identifying a person who is responsible for the day to day delivery of the procurement as well as the person who will be responsible for carrying out the gateway checks at the end of each stage of the procurement.</li> </ul>
--	--	---

CHART recommends that successful applicants use the East Sussex Procurement Hub to ensure that best practice is followed for tenders over £25,000 as it allows for a standardised and simplified process.

The procurement table found in [Annex J](#) will help you to decide which procurement procedure to follow based on the value of your contract.

Robust and transparent procurement is required to ensure that Grant Recipients:

- Consider value for money;
- Maximise efficient use of public money;
- Maintain competitiveness and fairness across the European Union.

## Publicity

You must publicise the fact that your project is receiving European funding.

The CHART Programme Team will be able to support with publicity and must approve all publicity before it is published.

The European Commission has set out specific guidelines relating to publicity that must be followed by every organisation that is involved in the delivery of your project.

The aim of these guidelines is to help promote and publicise the activities the ESIF have funded and the impact of this money. It is the responsibility of the lead organisation and their partners to ensure that they are being followed at all times.

The consequences of non-compliance are serious and could lead to repayment to us of some or even all of the funding paid to your project.

Audit and verification checks of your communication activities will be carried out by us, the Managing Authority and the European Commission. It is absolutely vital that projects not only meet the requirements set out here but also retain verifiable evidence that communication activities and publicity materials are fully compliant.

To help ensure the publicity requirements are being implemented in full, it's a good idea to put someone in place who is responsible for managing communications and marketing for the project.

See [Annex K](#) for a detailed guide to the publicity requirements for your project.

## Risk Register

The risk register is a tool to determine the likelihood of problems occurring during the lifetime of the project, and to identify solutions to prevent or minimise their impact in order to maximise the success of your project.

All Lead Partners will be required to maintain a risk register for the project. A template is provided in the application form.

This will be drawn up from the initial version included with your project application and may be amended during your inception visit. Lead Partners may also choose to set up risk registers with their Project Partners.

A good risk register should contain:

- A description of each risk – describe the risk in detail. Risks should be foreseeable and realistic.
- The owner – try to be as specific as possible about who owns the risk.
- Probability – How likely it is to happen (Low; Medium; High)
- Impact – How damaging to your project would it be (Low; Medium; High)
- Mitigation – Steps that have been taken to minimise the likelihood and impact

While you will not be able to identify everything that could go wrong with your project, by completing a risk register you will be able to put a plan into place to manage problems before they happen.

The sample below relates to a capital project.

<b>Risks</b> Please explain the issues and risks identified for the project and how these will be managed and mitigated.				
Risk Description	Owner	Probability	Impact	Mitigation
<b>Planning</b> Planning permission for the development is refused	J. Bloggs, Facilities and Development Manager, Bloggs Business Group	L	H	Pre application advice has been sought from the planning authority, with the recommendation to proceed.  Consultation on the development has taken place with neighbours in the

				area – there are no anticipated objections.
<b>Project overruns</b> The development may take longer than anticipated, resulting in an inability to defray funds within the lifetime of the project.	M. Mann, Project Manager, Bloggs Business Group	L	M	Dedicated and experienced project manager and architect will work with contractors to minimise risk.  Ensure adequate lag and lead times are present in the project plan allowing for minor delays.

**Top Tip:** Update your risk register frequently during the life of your project to remain ahead of any potential risk.

You can add the Risk Register to every Steering Group Meeting to update and review.

## Match Funding

### What is match funding?

CHART will only fund up to 50% of your project. You must provide the remaining 50% of your total project costs from eligible public match funding.

In order to be considered “eligible”, the match funding you provide must meet certain conditions:

- Match funding must be secured and available at the time of signing the CHART Grant Funding Agreement (in the application form you will have to explain if it is secured or not, and if not, when you are expecting to secure it).
- The match funding you provide must be used for exactly the same purpose as the ESF funding you are applying for, and spent on ESF eligible expenditure.
- Other European Union funds cannot be used as a source of match funding.
- Contributions “in kind” are ineligible as match funding.

### How do I know if my funding source is public or private?

- In order to be considered “public sector”, the organisation supplying the match should either directly or indirectly receive over 50% of its main funding from central or local government. This does not include payments for contracted work.
- Non-profit making voluntary and community organisations (whether incorporated or unincorporated) that are registered with the Charity Commission can supply public match funding as long as the registration is maintained throughout the period of the project.

- Public match funding can also be provided by private bodies designated or controlled by the State.

Sources of match may include:

- Other public funding
- Lottery distributors
- Private bodies designated or controlled by the State.

For further guidance on eligible match please contact the CHART programme team.

### **Using staff time as match funding**

Funding for eligible staff costs can be used as match, but only when the employer is either the Lead Partner or a Delivery Partner.

This must be calculated using the simplified costs methodology detailed in [Annex I](#).

All staff time used as match must be evidenced by the use of timesheets, except where a staff member spends 100% of their time on your CHART project. Timesheets must account for all hours worked by that staff member and not only those spent working on your CHART project.

### **Checks on Match funding**

Match funding is a prerequisite for receiving CHART funding and must be identified during the application process.

We will ask you to provide evidence of the match funding identified on your application form. This may be in the form of a letter or contract signed by someone in a position of authority.

If you're using your own funds as match, we are likely to ask you for additional evidence to decide whether your organisation can provide public match funding or not. To do this we may wish to look at your accounts for the previous year and financial forecast for the following year.

### **Evidencing and reporting match funding**

You will need to keep all evidence of match funding must be kept on file as match funds can be tested as part of the audit process. If evidence of match is not provided it could lead to financial penalties.

We will need to see that where you are spending, you are spending your match funding as declared.

## **Cross Cutting Themes**

There are two cross-cutting themes for ESF that must be fully integrated in the delivery of your project. These are:

- Sustainable development
- Gender equality and equal opportunities

The European Commission and the CHART Programme Team take these cross-cutting themes very seriously and they will expect to see projects fully embracing the principles behind them.

Lead partners must lead by example in the way that they run their own operations, including procurement and the way in which personnel are equipped with the skills and training needed.

You'll need to develop, implement and revise an Action Plan for **each** of these themes. You will then report to us regularly on your progress towards these.

### **Sustainable Development**

Sustainable development is about meeting the needs of the present, without compromising the ability of future generations to meet their own needs. It recognises the need to balance environmental, social and economic considerations when designing and delivering activities.

You'll need detailed policies in place to show how you will:

1. Reduce emissions to help limit climate change and adapt to its effects by:
  - raising awareness of energy conservation and efficiency opportunities
  - using less energy or using energy more efficiently
  - utilising renewable energy sources where possible
  - developing and promoting local supply chains
  - educating others of the need for sustainable development
2. Promote sustainable transport by:
  - adopting a travel plan that makes full use of things like car sharing, public transport and cycling.
  - exploiting ICT to help reduce the need for travel.
3. Promote the efficient use of natural resources by:
  - reducing waste
  - ensuring resources are easily recycled
  - maximising the use of reused, recycled or local sustainable materials
  - increasing water conservation.
4. Improve the quality of the local environment by:
  - improving people's wellbeing by developing their natural environment
  - providing education or training to promote healthier lifestyles
  - increasing opportunities to access green space and biodiversity
  - encouraging others to be mindful of the communities in which they are operating.
5. Minimising the risk of pollution and other environmental hazards by:
  - safeguarding the health of communities and the environment
  - disposing of residual waste in accordance best practice.

Your Action Plan will need to cover the following:

- how you've identified opportunities for sustainable development in the project
- what steps you've taken in the design of the project to take account of these
- how you will support and train staff in sustainable development
- how you will measure, monitor and review your environmental impact and that of your partners
- the policies and procedures your organisation and partnership has, or will put in place, and how these will be monitored and reviewed.

For more information about sustainable development visit [www.sd-commission.org.uk/](http://www.sd-commission.org.uk/)

### **Gender Equality and Equal Opportunities**

The need to treat everyone equally, regardless of race, gender, age, religion and belief, sexual orientation, marital status or disability, plays an important part in the sustainable development of local economies.

All organisations involved in delivering the projects we fund must be committed to promoting equal opportunities and non-discrimination in all areas of their work. This should be in line with current legislation, including the Equality Act 2010.

We'll be looking for the ways in which you have integrated your approach to equalities and actively promote gender equality in every aspect of the project, including how you ensure the involvement of disadvantaged groups in the way the project is run.

Your Action Plan will need to cover the following:

- how you've tried to understand the different needs and challenges of the people who will benefit from the project
- how you'll address any difficulties people may have finding out about the project
- the steps you will take to overcome the barriers faced by those hardest to reach
- the specific activities you will deliver to ensure people are not disadvantaged when it comes to accessing the project
- how you've integrated your approach to equalities in how the project is managed and run
- the equalities policies and procedures your organisation and partnership has, or will put in place, and how these will be monitored and reviewed.

### **FAQ**

Frequently asked questions can be found on the CHART Microsite at [hyperlink]. These are updated regularly, so please check frequently for changes. If you have a question, contact the CHART Programme Team (CHART@hastings.gov.uk)

### **Glossary of Terms**

#### **“Hastings Borough Council”**

Local Authority in the Hastings area and the Accountable Body and Programme Administration for CHART.

**“Department of Work and Pensions”**

The Managing Authority for ESF

**“Accountable Body”**

Hastings Borough Council, acting as the recipient of ESIF grant for the purposes of CHART CLLD.

**“CHART”**

Connecting Hastings and Rother Together. A community-led local development programme that accesses European Structural and Investment Funds.

**“LSOA”**

Lower Super Output Area. A fixed area with a small population.

**“IMD”**

Indices of Multiple Deprivation.

**“Programme area/ CHART area”**

CHART LSOA areas as identified in the CHART Local Development Strategy

**“Project”**

An individual project applying to or securing funds from the CHART CLLD Programme.

**“The Council”**

Hastings Borough Council.

**“Grant Applicant”**

The organisation applying for CHART funding.

**“Grant Recipient”**

The organisation awarded CHART funding.

**“ESF”**

European Social Fund.

**“ERDF”**

European Regional Development Fund.

**“DWP”**

Department of Work and Pensions (Managing Authority for ESF funding)

**“MHCLG”**

Ministry of Housing, Communities and Local Government (Managing Authority for ERDF funding)

**“LAG”**

CHART ‘Local Action Group’ Board.

**“EDG”**

CHART Executive Delivery Group

**“CHART LDS”**

The CHART Local Development Strategy

**“Work Package”**

The individual packages of funding that the CHART programme is divided into.

**“Lead Partner”**

Applies for and administers CHART funds on behalf of a group of applicants.

**“Grant Funding Agreement”**

Legal agreement detailing terms and conditions of the CHART grant. This agreement is between Hastings Borough Council and the Grant Recipient.

**“GDPR”**

General Data Protection Regulation.

**“Grant Recipient Induction”**

Formal induction process

**“Targets”**

Deliverables that must be achieved by your Project

**“Participant”**

An individual or business who is an end beneficiary of the programme.

**“Beneficiary”**

The individual or business who will ultimately benefit from your Project

**“Partnership”**

Two or more organisations working together as partners. Partnerships must have a Lead Partner.

**“Procurement”**

The act of obtaining or buying goods or services.

**“Logo”**

The ESF, ERDF or ESIF logo.

**“Cross-cutting themes”**

Equality and Diversity and Sustainable Development

**“Indirect Costs”**

Costs arising as a result of direct costs, including overheads.

**“Flat Rate costs”**

Costs which are calculated based on a set percentage.

**“Eligible Expenditure”**

Expenditure that is eligible under the provisions of the Eligibility Rules for ESF.

**“Defrayed”**

Payment of costs or expenses

**“Claim”**

The Claim documentation submitted to the Accountable Body on a Quarterly basis.

**“Match Funding”**

The contribution to the Project to meet the balance of Eligible Expenditure not supported by Grant and the Match Funding details are contained in the Project Specific Conditions.

**“Enterprise”**

A business or undertaking.

## **Annexes**

This section contains all the Annexes relating to the content within this handbook.

[The remainder of this page is intentionally blank]

## Annex A: CHART Areas (LSOAs)

The CHART Areas (LSOAs)				
LSOA code (2011)	Ward Name	LSOA Name	Population , (Census 2011)	Overall I % IMD 2010
<b>Hollington</b>				
E01020993	Hollington	Hastings 003A	1,344	6.20%

Project activity must be based within the CLLD programme area defined in the Connecting Hastings & Rother Together (CHART) Community Led Local Development Strategy ([www.hastings.gov.uk/content/chart/docs/local-development-strategy.pdf](http://www.hastings.gov.uk/content/chart/docs/local-development-strategy.pdf)). Activity that is not aligned with this strategy is ineligible for support and must not be included in grant claims.

Any costs, outputs or results associated with beneficiaries based outside the CLLD area will be ineligible for European Regional Development Fund support and must not be included within grant claims.

However, activity with beneficiaries based outside the areas will still be monitored on a yearly basis and therefore records will need to be kept accordingly.

## **Annex B: CHART Claim Progress Report**

### **Programme period 2014 - 2020, Community Led Local Development, European Social and European Regional Development Fund**

#### **Project Progress Report**

#### **CHART PROGRAMME**

Grant Recipient	
Project Name	
Project Reference Number	
Claim Number	
Claim Period	

You'll submit this report to us at the end of each quarter. It gives us a detailed picture of how the grant is being spent and how the project is performing.

Please refer to the CHART Grant Recipient Handbook ([www.hastings.gov.uk/chart/project/](http://www.hastings.gov.uk/chart/project/)) for further information on completing this report.

Your claim may be returned if any of the information is considered insufficient or incorrect.

#### **Attachments**

Tick each box to confirm that you are sending us:

- your CHART Claim Form ☐
- your CHART Transaction list ☐
- your CHART Participant Data Schema- (ESF Only) ☐

## 1. PROGRESS

**Physical Progress** - Please report on the actual activities undertaken in the claim instalment period. This should relate back to the scope of activities outlined in your full application and Funding Agreement. If there have been any delays or issues encountered in the period these should be detailed along with measures to address them.

### **1.1 Financial Performance - Note - this should draw on the information provided within the 'Expenditure Actual and Forecast' section of the claim form.**

This section should cover project performance in terms of actual expenditure against the profiled values contained in the Funding Agreement. Consideration should also be given to forecast expenditure and whether the project is still on track and to budget. Any expenditure slippage should be explained and justified with plans outlined on how the slippage will be addressed. Any potential overspend or a request to re-profile expenditure should be flagged up here.

**1.2 Outputs - Note - this should draw on the information provided within the 'Output details' and 'Outputs Actual and Forecast' section of the claim form.**

Actual achievement of targets and forecast against the profile outlined within the funding agreement. Identify any issues relating to measuring/ evidencing targets or take up of from participants/ businesses.

Variances from the contracted profiles i.e. 'slippage' should be explained and detail provided of remedial measures to bring things back on track.

Any actual or anticipated under performance with a variance greater than 15% from the contracted targets may result in de-commitment or withdrawal of ESIF funding in line with underperformance policy and you should discuss such situations with the CHART Project Delivery Animator in the first instance.

Any request to re-profile project outputs should be outlined here.

**1.3 Specific Conditions**

Please report progress on specific conditions in the project Funding Agreement.

#### 1.4 Income (ERDF only)

Income generation from any activities of the project should have been set out in your full application and considered during appraisal. Any income received as a result of ERDF funded activity needs to be taken into consideration and will impact on the amount of grant available to you.

If income generation was anticipated within your application, the applicable EC regulation, referred to as Article 61 and 65 (8)), will be included within your funding agreement under Project Specific Conditions. **Therefore if income generation is applicable you will be required to report on the values generated, both on the cover sheet of the ERDF claim and within this section of the progress report.**

For the interim claim process, projects that generate income during implementation of the project (Article 65 (8)) are required to report on the amount of income generated in the claim period. The income reported on the progress reports will be deducted from a future claim when E-Claims is fully operational.

In addition please declare any unexpected income within this section of the progress report.

Income Description	Amount (£)

Total		
-------	--	--

**1.5 Match Funding**

Please report on the match funding received during the claim instalment period as well as the cumulative values received to date.

This should follow the format below and if necessary be split into both capital and revenue funding packages.

Any potential changes to the funding package should also be detailed. Any changes to match funding available may have implications on the amount of CHART funding the Accountable Body is able to authorise.

Match Funder (source of funding detailed in Funding Agreement)	Match Funding Received this Claim Period	Cumulative total to date (£)	Contracted Value (£)
Source A			
Source B			
Total			

**1.6 Equal Opportunities & Sustainable Development**

Report on how what improvements/updates/amendments have been made to show how Equal Opportunities and Sustainable Development governance, policies and implementation/action plans have progressed in the claim instalment period.

## 2. Looking Ahead

**2.1 Milestones and Planned Activity** Please insert the project milestone table from the Full Application and update on progress. Please also report on key activities that are planned for the next claim instalment period including any key dates or events.

### 2.2 How prepared are you for the next part of your project?

	Everything is on track and you don't expect any problems	A problem may arise but you're confident you can handle it	A problem is likely to arise that could seriously affect your
--	--	--	---

			project.
A problem is likely to arise that could seriously affect your project.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Your ability to control project costs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Your ability to get or train staff and other resources you need for this project	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Your ability to achieve your targets or outcomes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Your ability to deliver the cross-cutting themes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Your ability to monitor the participants engaged in the project	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Your ability to implement the publicity guidelines across the project	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Explain what challenges you're facing and how you're planning to manage it. Please tell us if there are ways you think we can help:

### 3. PROJECT ISSUES AND CHANGES

If not covered previously, please report on any issues or significant changes to the project that will have impact upon the deliverables, programme and budget. If applicable the project change request form should be completed; if you are unsure about this please discuss with the CHART Project Delivery Animator.

### 4. STATE AID

State Aid measures applicable to the project will have been identified at appraisal and will be detailed in the Funding Agreement. Please complete the following tables where appropriate.

If for any reason any measure not agreed at appraisal has been utilised this should be detailed within this section although this should have been discussed beforehand with the CHART Project Delivery Animator.

Please seek guidance from the CHART Project Delivery Animator if you are unsure how to complete this section.

#### 4.1 De Minimis aid

<b>Amount of State Aid Received as a grant recipient since the last reporting period</b>	
State Aid Measure	Amount of Aid Received (£)

#### 4.2 State Aid under General Block Exemptions:

**Please report on funding received this quarter and how you have allocated this within your GBER (s) scheme (s):**

Organisation providing the assistance/aid	Date of assistance	Value of assistance	Programme Value	Aid Intensity (see below)	Nature of assistance (broken down as required)	Detail of each General Block Exemption applied and threshold reached

Aid Intensity: Particular aid intensity limits are specified for each scheme approved under a block exemption or other framework. These determine the *maximum level of public funding* that can be given under the rules that apply to your project, and are expressed as a percentage of the total costs eligible for support.

**Please identify any changes in your project under your GBER regulation, such as**

aid intensity, further state aid investment in the project etc.

#### 4.3 Beneficiaries receiving State Aid as part of your project:

In delivering the project aid dispersed to SME beneficiaries since the last reporting period

State Aid Measure	Amount of Aid Dispersed (£)	Beneficiary reference number	Claim quarter/date (document company information recorded)

If there are beneficiaries who have received State Aid as part of this project and are not classed as an output please complete the following table ( add more rows if required):

State aid measure	Amount of aid dispersed	Company number	Company name	Date of assistance

Please append any statement of previous aid received under the De Minimis Exemption to this progress report.

## **5. BRANDING & PUBLICITY**

Please report on any publicity activity that has taken place during the claim instalment period. This may include publicity material, leaflets, banners or stationary and any press releases, newspaper articles or publicity events – please submit evidence with claim where available.

## **6. PROCUREMENT**

Please report on any procurement within this claim instalment period and any planned procurement within the next claim period.

## 7. DECLARATION

You confirm that:

- the information in this report is accurate and true
- the money from the ESF or ERDF has been used exclusively for the project described in the original application, together with any changes you've agreed with us since then
- there haven't been any significant changes to your project or the governance of your organisation or partnership apart from any you've told us about and we've agreed to in writing
- you haven't received any duplicate funding for the activities, services or facilities the ESF or ERDF funding is paying for
- you have sought to achieve value for money for your project by securing goods and services at reasonable prices
- your organisation keeps full and proper accounts and records, including invoices and receipts, which show how the money from ESF/ERDF has been used
- your organisation has implemented its equalities policy and, if working with children, young people or vulnerable adults, a safeguarding policy; these policies are carried out and regularly reviewed to ensure they adhere to current legislation and regulations
- your organisation hasn't disposed of any funded assets without getting permission from us in writing
- your organisation is following all current statutory requirements and other laws and regulations relating to the project and its working including: adherence to

employers' liability insurance; procurement regulations; the national minimum wage; the working time directive; health and safety; safeguarding of children, young people and vulnerable adults; data protection and intellectual property rights legislation.

## **Annex C: CHART Claim Form**

The CHART claim form can be found on the CHART microsite at [www.hastings.gov.uk/chart](http://www.hastings.gov.uk/chart). If you cannot access the form online, please email the CHART Programme Team for a copy [CHART@hastings.gov.uk](mailto:CHART@hastings.gov.uk).

[The remainder of this page is intentionally blank]

## **Annex D: CHART Transaction List**

The CHART transaction list can be found on the CHART microsite at [www.hastings.gov.uk/chart](http://www.hastings.gov.uk/chart). If you cannot access the list online, please email the CHART Programme Team for a copy [CHART@hastings.gov.uk](mailto:CHART@hastings.gov.uk).

[The remainder of this page is intentionally blank]

## Annex E: Apportionment methodologies

### Flat rate indirect costs

An indirect cost is a cost which would normally be shared or apportioned e.g. premises and running costs shared with non-project staff and activity, such as office overheads.

For ESF projects under CHART, this is 40% of staff costs only to calculate direct and indirect costs (not adding in any other direct costs).

Using a flat rate calculation removes the need for complex apportionment or overhead methodologies or checking of evidence/audit trail associated with indirect costs.

### 40% apportionment methodology example

Using a calculation of 40% of staff costs only (not adding in any other direct costs).

Total staff costs	£256,000	Other direct costs	£12,300
The calculation is 40% of 256,000 = £102,400 which produces:			
Total project costs £256,000 (staff costs) + £102,400 (indirect costs) = £358,400.			

Please see the “ESF National Eligibility Rules” for more information and examples:  
[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/626878/ESF\\_national\\_eligibility\\_rules.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/626878/ESF_national_eligibility_rules.pdf)

### Apportionment of direct costs

Direct costs cannot be apportioned. A general rule of thumb is that if a methodology is required to calculate the cost to the project it would be classed as indirect.

## Annex F: Underperformance methodology

The methodology below will be used to run scenarios and assess appropriate financial penalty for an operation's underperformance in delivery of outputs.

The methodology is flexible and allows:

- 1) Outputs to be varied according to what has been contracted / is most appropriate for specific Priority Axes and individual operations.
- 2) Weightings to be varied depending upon the level of underperformance :
  - a) Where underperformance is between 16% and 25% a weighting of 5% would normally be applied
  - b) Where underperformance is between 26% and 50% a weighting of 10% would normally be applied
  - c) Underperformance of over 50% would normally result in a weighting of at least 15%.

NB: Variance of up to 15% would normally be dealt with via change request. Although the Project Change Request is usually used to amend targets below 15%, the Managing Authority may choose to use the methodology to assess the value of these changes.

Methodology for calculating penalty for operation underperformance						
	Methodology					
	OUTPUTS TO BE INCLUDED IN THE CALCULATION (Up to 4 outputs to be selected according to Priority Axis and those contracted for this operation)		Output 1	Output 2	Output 3	Output 4
			Output reference / ID	Output reference / ID	Output reference / ID	Output reference / ID
			Output description / Indicator	Output description / Indicator	Output description / Indicator	Output description / Indicator
			NB: will be Performance Framework output where contracted			
Basic facts	Total Project Value (a)	£ value as per schedule 1 of FAL / details as per latest variation				
	Contracted Target (b)		Number contracted as per schedule 3 of FAL	Number contracted as per schedule 3 of FAL	Number contracted as per schedule 3 of FAL	Number contracted as per schedule 3 of FAL
	Evidenced / actual		Number actually	Number actually	Number actually	Number actually

	achievement (c)		achieved at time of calculation	achieved at time of calculation	achieved at time of calculation	achieved at time of calculation
Calculated Variance	Variance (number) (d)	(b) - (c)	(b) - (c)	(b) - (c)	(b) - (c)	(b) - (c)
	Variance (%) (e)	(d) / (b) x 100	(d) / (b) x 100	(d) / (b) x 100	(d) / (b) x 100	(d) / (b) x 100
Weighting	Up to 15% below target = normally deal with via project change process 16% and 25% below a weighting of 5% would normally be applied 26% and 50% below a weighting of 10% would normally be applied Over 50% below would normally result in a weighting of at least 15% (f)	(f)	identify weighting as appropriate (see e). B: Where a project has overachieved the variance (e) will appear as a negative figure. The corresponding % as a negative (using the criteria here) should be added as the weighting against the indicator. This allows for the overachievement to be taken into account in the calculation of the penalty.	identify weighting as appropriate (see e). B: Where a project has overachieved the variance (e) will appear as a negative figure. Penalty	Underperformance value (£) (h)		(g) x (f)	(g) x (f)	(g) x (f)	(g) x (f)
	Potential Reduction Value (£) (i)	sum all (h)s				

## Annex G: ESF Output and Results Definitions for CHART

The following information provides a summary on the definitions for CHART ESF outputs and results. Further information and guidance on these outputs can be found within the [Output and Result Indicator Definitions Guidance for the European Social Fund, Feb 2016](#).

<b>ESF - CO01 Unemployed, including long-term unemployed</b>	
<b>Unit of Measurement</b>	Participants (male and female)
<b>Count Criteria: Who can be recorded against this indicator?</b>	<p>(The employment status is determined on the date of entering the ESF operation.)</p> <p><i>Unemployed are persons usually without work, available for work and actively seeking work. Persons considered as registered unemployed according to national definitions are always included here even if they do not fulfil all three of these criteria.</i></p> <p>The definition of long-term unemployed varies with age:</p> <ul style="list-style-type: none"> <li>• <i>Adult long-term unemployed (25 years of age or more) = more than 12 months continuous spell of unemployment</i></li> </ul> <p><b>Source of definition</b>  <a href="http://ec.europa.eu/eurostat/documents/3859598/5935673/KS-GO-13-002-EN.PDF">http://ec.europa.eu/eurostat/documents/3859598/5935673/KS-GO-13-002-EN.PDF</a></p> <p>The wording in italics is identical to the LMP definition. This entails both the Labour Force Survey definition of unemployed plus registered unemployed.</p>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	<p>For the purpose of reporting to the European Commission, a participant should be counted only once in any given operation. An individual may be counted as a participant in more than one operation but never more than once per operation (for output indicators).</p> <p>Current guidelines from the European Commission state that a participant who returns to an operation after leaving cannot be counted as a “new” participant. On a second participation at the same operation, the initial leaving date and data relating to result indicators should be updated to reflect the latest results.</p>
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	People who are economically ‘inactive’ or ‘employed’
<b>Additional information</b>	Full-time students, even if they fulfil the criteria for

<b>required for indicators</b>	<p>unemployed as set out in this definition, are considered as "inactive".</p> <p>People with maternity or paternity- related entitlement while unemployed are always considered as "unemployed".</p> <p>The employment status is determined on the date of entering the ESF operation.</p>
<b>Relationship to other Indicators</b>	<p>Indicator CO02 (long term unemployed) will be a subset of this indicator.</p> <p><b>Validation tests for data at the level of the participation record:</b></p> <p>(i) An individual who is "long term unemployed" must also be "unemployed".</p> <p>(ii) An individual can only be in one of the situations: "unemployed"; "inactive" or "employed".</p> <p>(iii) No individual can be both "male" and "female".</p>

<b>(ESF- CO03) Inactive</b>	
<b>Unit of Measurement</b>	<b>Participants (male and female)</b>
<b>Count Criteria: Who can be recorded against this indicator?</b>	<p><i>"Inactive" are persons currently not part of the labour force (in the sense that they are not employed or unemployed according to the definitions provided).</i></p> <p>Source: Eurostat</p> <p>The wording in italics is identical to the LMP definition.</p>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	<p>For the purpose of reporting to the European Commission, a participant should be counted only once in any given operation. An individual may be counted as a participant in more than one operation but never more than once per operation (for output indicators).</p> <p>Current guidelines from the European Commission state that a participant who returns to an operation after leaving cannot be counted as a "new" participant. On a second participation at the same operation, the initial leaving date and data relating to result indicators should be updated to reflect the final operation.</p>
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	<ul style="list-style-type: none"> <li>• People registered as unemployed, including / long-term unemployed.</li> <li>• Self-employed (including helping family members) are not considered as 'inactive'.</li> <li>• Employed people.</li> </ul>
<b>Additional information required for indicators</b>	<p>"Inactive" are people who are not currently part of the labour force (in the sense that they are not employed or unemployed according to the definitions provided above).</p> <p>Full-time students are considered as "inactive".</p>

	<p>People on full-time parental leave (understood as absences from work to bring up a child of young age for a period which does not fall under the classification of maternity or paternity leave) should be considered as inactive, unless already registered as unemployed. In this latter case, they should be counted as “unemployed”.</p> <p>"Self-employed" (including helping family members) are not considered as "inactive".</p> <p>The employment status is determined on the date of entering the ESF operation.</p>
<b>Relationship to other Indicators</b>	<p><b>Validation tests for data at the level of the participation record:</b></p> <p>(i) An individual can only be in one of the following situations: “unemployed”; “inactive” or “employed”</p> <p>(ii) An individual who is “inactive, not in education or training” must also be recorded as inactive</p> <p>(iii) No individual can be both “male” and “female”</p>

<b>(O4) Participants over 50 years of age</b>	
<b>Unit of Measurement</b>	Participants (male and female)
<b>Count Criteria: Who can be recorded against this indicator?</b>	<p><b>Definition:</b></p> <p>The age of the participant is calculated from the date of birth and determined on the date of entering the ESF operation.</p>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	See above definition
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	Participants aged 50 or younger (on the date they joined the operation) should not be counted for this indicator.
<b>Additional information required for indicators</b>	<p>The Managing Authority anticipates that the ESF / ERDF MI database will calculate this indicator based on date of birth and start dates supplied by the project. The database has yet to be developed at time of writing. The approach described above may change – if this happens, this guidance will be amended accordingly.</p> <p>Data for this indicator has to be broken down by category of region.</p>

<b>Relationship to other Indicators</b>	This is a programme-specific output indicator and supports the 'over 50' output targets in Priority Axis 1 and IP 2.1
---	---

<b>(O5) Participants from ethnic minorities</b>	
<b>Unit of Measurement</b>	Participants (male and female)
Count Criteria: Who can be recorded against this indicator?	<p>Definition for ethnic minority is taken from indicator ESF-C015, as below.</p> <p><b>What is your ethnic group?</b>  Select one option (from groups 1-18_below) that best describes your ethnic group or background.  (Groups 3 and 5-18 will be counted as "ethnic minorities" when the ESF Managing Authority provides aggregated monitoring data to the European Commission. However, individual ESF providers must gather data and record it against each relevant group below so that a full and detailed split of ethnic group data can also be monitored / reported ).</p> <p><b>White</b></p> <ol style="list-style-type: none"> <li>1. English/Welsh/Scottish/Northern Irish/British</li> <li>2. Irish</li> <li>3. Gypsy or Irish Traveller or ROMA</li> <li>4. Any other White background,</li> </ol> <p><b>Mixed/Multiple ethnic groups</b></p> <ol style="list-style-type: none"> <li>5. White and Black Caribbean</li> <li>6. White and Black African</li> <li>7. White and Asian</li> <li>8. Any other Mixed/Multiple ethnic background,</li> </ol> <p><b>Asian/Asian British</b></p> <ol style="list-style-type: none"> <li>9. Indian</li> <li>10. Pakistani</li> <li>11. Bangladeshi</li> <li>12. Chinese</li> <li>13. Any other Asian background,</li> </ol> <p><b>Black/African/Caribbean/Black British</b></p> <ol style="list-style-type: none"> <li>14. African</li> <li>15. Caribbean</li> <li>16. Any other Black/African/Caribbean background,</li> </ol> <p><b>Other ethnic group</b></p> <ol style="list-style-type: none"> <li>17. Arab</li> <li>18. Any other ethnic group</li> </ol>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one</b>	See above definition

<b>count) of this indicator?</b>	
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	
<b>Additional information required for indicators</b>	An Individual should be recorded against one ethnic group selected from groups 1-18 above. Data for this indicator has to be broken down by category of region.
<b>Relationship to other Indicators</b>	<b>Internal data consistency check ( common output indicators):</b> (i) No individual can be both “male” and “female”.

<b>(ESF-CO16) Participants with disabilities</b>	
<b>Unit of Measurement</b>	Participants (male and female)
Count Criteria: Who can be recorded against this indicator?	<p><b>EC Definition:</b>  <i>“Participants with disabilities” are persons who are registered disabled according to national definitions</i>  Source: LMP  <a href="http://ec.europa.eu/eurostat/documents/3859598/5935673/KS-GQ-13-002-EN.PDF">http://ec.europa.eu/eurostat/documents/3859598/5935673/KS-GQ-13-002-EN.PDF</a></p> <p><b>National Definition</b>  Disability: The main national definition is as defined in the Equality Act 2010. See link. <a href="https://www.gov.uk/definition-of-disability-under-equality-act-2010">https://www.gov.uk/definition-of-disability-under-equality-act-2010</a>.</p> <p>You're disabled under the Equality Act 2010 if you have a physical or mental impairment that has a 'substantial' and 'long-term' negative effect on your ability to do normal daily activities.</p> <ul style="list-style-type: none"> <li>• 'substantial' is more than minor or trivial - e.g. it takes much longer than it usually would to complete a daily task like getting dressed</li> <li>• 'long-term' means 12 months or more – e.g. a breathing condition that develops as a result of a lung infection</li> </ul> <p>However experience has shown that there are some ESF provision types where it has proved difficult to measure. We therefore will allow beneficiaries to alternatively count where the participant discloses a disability that limits the ability to work (as this is often used in questionnaires by the Office for</p>

	<p>National Statistics).</p> <p>We will also allow use of information on people that are in receipt of the core disability benefits but only those where being in receipt of the benefit is confirmation that that they have met the above definitions: this is not alternative criteria.</p> <p>An individual participant may be recorded under a number of 'disadvantage' –related indicators.</p>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	
<b>Additional information required for indicators</b>	Data for this indicator has to be broken down by category of region.
<b>Relationship to other Indicators</b>	<p><b>Validation tests for data at the level of the participation record:</b></p> <p>(i) No individual can be both “male” and “female”</p>

## ESF Results

<b>(R1) Unemployed participants into employment (including self-employment) on leaving</b>	
<b>Unit of Measurement</b>	Participants (male and female)
<b>Count Criteria: Who can be recorded against this indicator?</b>	<p>This programme-specific immediate result indicator is a sub-set of the 'common immediate result' indicator.</p> <p>“Participants in employment, including self-employment, upon leaving”. It is a sub-set because it only counts the participants who were 'unemployed' when they started at the operation.</p> <p>Unemployed is defined in indicator C1 “ Unemployed, including long term unemployed”</p> <p>“In employment, including self-employment” is defined as in the indicator 'Employed including self-employed'(C5)</p> <p>“On leaving / upon leaving” is understood to mean the</p>

	situation on the leaving date or within <u>4 weeks</u> of the leaving date.
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	See definition above
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	
<b>Additional information required for indicators</b>	
<b>Relationship to other Indicators</b>	<p>This indicator is a sub-set of the common immediate result indicator "Participants in employment, including self-employment, upon leaving"</p> <p>It excludes those participants who were <u>inactive</u> upon entry to the operation.</p>

<b>(R2) Inactive participants into employment or job search upon leaving</b>	
<b>Unit of Measurement</b>	Participants (male and female)
<b>Count Criteria: Who can be recorded against this indicator?</b>	<p>This programme-specific indicator combines the 'common' immediate result indicator "Inactive participants engaged in job search upon leaving" (ESF CR01) with any inactive participants counted under "the common immediate result indicator "Participants in employment, including self-employment upon leaving" (ESF CR04). In this latter case, inactive participants will be a sub-set of participants counted in CR04).</p> <p>Inactive is defined as in the indicator "Inactive" (The reference population is ESF CO03).</p> <p>"On leaving / upon leaving" is understood to mean the situation on the leaving date or within <u>4 weeks</u> of the leaving date.</p>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	
<b>Count Exclusions:</b>	

<b>Which people cannot be counted against this indicator?</b>	
<b>Additional information required for indicators</b>	This indicator is to be understood as a change in the employment status upon leaving the operation, compared to the status when entering the ESF operation (with the participant being inactive, not engaged in job searching for work, when entering the ESF operation). Data for this indicator has to be broken down by category of region.
<b>Relationship to other Indicators</b>	

<b>ESF CR02) Participants in education/training upon leaving</b>	
<b>Unit of Measurement</b>	Participants (male and female)
<b>Count Criteria: Who can be recorded against this indicator?</b>	<p><b>Definition:</b> Persons who have received ESF support and who are newly engaged in education (lifelong learning, formal education) or training activities (off-the-job/in-the-job training, vocational training, etc.) immediately upon leaving the ESF operation.</p> <p>"upon leaving" is to be understood as up to <u>four weeks</u> after the exit date of the participant.</p> <p><b>Source:</b> ESF Monitoring and Evaluation Guidance on Cohesion Policy June 2015.</p>
<b>Count Threshold: What is the threshold or minimum requirement for recording (one count) of this indicator?</b>	See definition above
<b>Count Exclusions: Which people cannot be counted against this indicator?</b>	Participants not meeting above criteria
<b>Additional information required for indicators</b>	<p>This indicator is to be understood as a change in the situation upon leaving, compared to the situation when entering the ESF operation (with the participant not being in education/training when entering the ESF operation).</p> <p>The reference population is: all participants, except participants who were engaged in education/training upon entering.</p>

	The source of funding of the ensuing training is not relevant
<b>Relationship to other Indicators</b>	

## **Annex H: CHART Participant File Template**

The CHART Participant File Template can be found on the CHART microsite at [www.hastings.gov.uk/chart](http://www.hastings.gov.uk/chart). If you cannot access the file online, please email the CHART Programme Team for a copy [CHART@hastings.gov.uk](mailto:CHART@hastings.gov.uk).

[The remainder of this page is intentionally blank]

## **Annex I: Eligibility of costs**

### **Eligible Expenditure**

Costs for ESF projects under CHART must fit within one of the following expenditure headings:

- Direct staff costs
- Other direct costs
- Indirect costs

### **Direct Staff Costs**

Direct staff costs for staff directly working on the project<sup>2</sup>:

- salaries and on-costs including NI and superannuation and benefits which are part of the contractual conditions (taxable incentives linked to pay and pension contributions),
- includes internal (employed) staff or external staff (employed through agencies and/or by named delivery partners),
- please see below more information on how to calculate direct staff costs for staff members who work on more than one project;

### **Staff working part-time on your project**

If a staff member shares their time between more than one project, then in your budget you can only include the number of hours they actually spend on this project. To do so:

- you will need to know the exact number of hours the staff member worked on the project each month (at the application stage you need to estimate it);
- they must keep monthly timesheets recording 100% of their time (not just the time spent on the project!);
- timesheets need to be signed by the staff member and their manager and include enough detail;
- you will need to multiply the number of actual hours by their individual hourly rate (please see below info on how to calculate it).

Costs related to maternity / paternity / sick leave are only allowed in relation to staff who work solely on the project. If other individuals are required to backfill and undertake work on the project as a result of someone's absence then that individual's hours (if evidenced by timesheets) can be charged to the project.

How to calculate the hourly rate

Hourly rate = latest documented annual gross employment costs / 1720 hours  
(if a staff member works part time, a corresponding pro-rata of 1720 hours is to be used e.g. if a staff member works 0.5 Full Time Equivalent, divide by 860 instead of 1720)

---

<sup>2</sup> Staff employed wholly or for a specific part of their duty on ESF related activity need to have a letter of appointment and job description that clearly states starting and finishing dates (if appropriate) and makes clear that they will be wholly employed on ESF related activity

**The figure of 1720 hours is a fixed calculation set in the funding rules, please only use this annual figure even if your staff work a different number of hours.**

If your project is longer than 1 year, this calculation will be updated annually.

The 'latest documented annual gross employment costs' should be evidenced by a payroll report illustrating previous 12 consecutive months' payments. For new posts or those less than 12 months old, the salary used must be comparable to those in existence for posts on a similar grade (where there is no direct benchmark, a job description, contract of employment and rationale for proposed salary should be provided). Individuals returning from maternity/paternity leave or long term sick leave (where the 12 month reference period may show reduced or no payments) should be treated as a new post.

### **Indirect costs**

Indirect costs which would normally be shared or apportioned e.g. premises and running costs shared with non-project staff and activity:

- You can include these costs only as a flat rate calculation: 40% of eligible direct staff costs

### **Eligible participant costs**

Although eligible, we expect these to be limited to costs that are absolutely essential to the delivery of the project.

- Wage subsidy or training allowance
- Travel costs
- Childcare and other dependent care costs
- Board and lodging for external courses

### **Direct Costs**

Direct costs which are other costs directly related to the delivery of the project (not shared or apportioned):

- Premises costs and running costs (e.g. rent, gas, electricity, water, insurance) if used exclusively for the delivery of a project,
- Hire and operating leases of equipment
- Depreciation of equipment already owned and used in the project
- Stationery and consumables
- Small items of equipment costing less than £1,000 per item
- Fees (eg, consultants)
- Publicity and marketing activity
- Postage and telephone, heat, light and power
- Cleaning, minor repairs and maintenance
- Running costs of nurseries and other care facilities
- Cost of audit, legal and accountancy
- VAT (if not recoverable)

All the types of costs mentioned above (apart from indirect costs) must be paid for (= payment to leave your bank account) after the start date of your project and before the end date of your project

### **Ineligible Costs**

Types of costs that **cannot** be included in your project budget:

- Financial costs: interest, costs of financial leases and other financial charges
- Consultancy fees associated with the application and claims processes, or management fees or commissions
- Staff time spent completing/writing applications and project closure reports
- Non-statutory allowances to staff
- Charges again for equipment or building which have previously attracted EU funding
- Volunteer time, as this is considered private match
- Purchase of second-hand equipment
- Any single item costing over £1,000
- Costs exceeding market value,
- Debt interest,
- Lost opportunity costs,
- Costs paid for (= payment left your bank account) before the start date of your project or after the end date of your project,
- Costs in relation to activity intended to influence or attempt to influence the UK Parliament, Government, political parties or European Union institutions,
- Costs in relation to activity attempting to influence the awarding or renewal of contracts or grants,
- Costs in relation to activity attempting to influence legislative or regulatory action in the UK of the EU.

Please see the “ESF National Eligibility Rules” for detailed guidance:

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/626878/ESF\\_national\\_eligibility\\_rules.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/626878/ESF_national_eligibility_rules.pdf)

## Annex J: Procurement

You will have to ensure and evidence that everything that you buy for the project (be it goods, services or works) has been purchased in a transparent and fair way and provides value for money.

The tendering procedure can be daunting to those who are not used to them. However, if you follow the guidance set out earlier in this document and in this Annex, you will comply with the required procedures. If in any doubt, make use of the contacts identified in the relevant section below.

Procurement is a very complex area and auditors always check procurement records in great detail. Errors will result in financial penalties. Usually the penalties are between 5% and 25% of grant value in relation to the purchases in question, however in some cases they can be up to 100%.

We recommend that you use the table below to decide what procedure you need to follow:

Value	What to do?	Advertising?
Contact Type A £0 – £2,499	You can buy what you need without competition but you have to be able to evidence that the price is not excessive.	No
Contract Type B £2,500 – £24,999	You need to collect 3 written quotations.	No
Contract Type C £25,000 – up to £164,176 for supplies and goods or £4,104,394 for works*	Formal tender in line with Interpretative Communication	Yes, on the Contracts Finder and your website. It is recommended that you use East Sussex Procurement Hub for contracts of this value.

*\*thresholds relevant for the period 1 January 2016 – 31 December 2017. They are updated every two years.*

All these values are net of VAT.

You cannot artificially divide your purchases to lower their individual value. E.g. if you are planning 5 training sessions and would like to find a catering company to provide lunch for participants, you should estimate your catering costs based on 5 sessions and not just 1.

If you are estimating that the value of your purchase may be very close to one of the thresholds listed above, we recommend that you use the more rigorous procedure.

If you are going to carry out a formal tender, we recommend that you contact us for further guidance and support and that the procurement is carried out by staff experienced in this area.

You can find more details in:

- ESIF National Procurement Requirements
- Procurement Aide Memoire for Applicants and Grant Recipients

These are available here:

<https://www.gov.uk/government/publications/european-structural-and-investment-funds-procurement-documents>

## Annex K: Publicity Requirements for ESF programmes

This annex relates to any publicity or promotional materials or campaigns that will form part of your project. Some of these are mandatory.

We will need to see copies of any publicity before you publish them to make sure that they meet these requirements.

### The logo

The principle is that all materials and documents must acknowledge and reference the funding received from the European Structural and Investment Funds. You'll use a specific logo to do this.

If your programme only uses funds from ESF (Work Packages 3&4), then you must use the ESF logo only. If your programme uses both ERDF and ESF (Work Packages 1-4), then you must use the European Structural and Investment Funds logo, which covers both programmes.

The logo works best in colour on a white background.

**European Union**

European  
Social Fund

**European Union**

European Structural  
and Investment Funds

### How to use the logo

The logo:

- must be used and applied correctly, prominently and consistently on all websites, publicity materials and project documentation related to the project
- should be placed in a prominent and suitable position
- at a minimum, the logo should be 40mm in width
- must have an appropriate clearance zone around it and the background of the document should be uncluttered and provide enough contrast to ensure clarity

If used alongside other logos, it should be at least equal in size to the largest of the other logos and appropriate to the scale of the material and documents being used.

### How not to use the logo

The logo:

- must stay in proportion and be clear to read

- must not be stretched, squashed or broken up
- must not be edited or reproduced in a different colour scheme or typeface
- must not have any other wording or illustration added to it
- must not be blurred, rotated or distorted.

### **CHART programme specifics on logos**

CHART funded projects should also display the CHART logo prominently as above. For ease, we have created a logo file which is available upon request and contains both the CHART logo and the ESF logo (for ESF only projects) and the ESIF logo (for projects in receipt of both ERDF and ESF).

The CHART logo is the word “CHART” in teal, with “Connecting Hastings & Rother Together” below this in teal and orange.

**Figure 1: Combined CHART and ESIF logos**

If using combined CHART and ESF/ ESIF logo, you may not add any border to it.

### **Types of publicity**

The publicity requirements vary depending on the type of communication activity.

#### **Posters**

Lead partners and their partners must display **at least** one poster at **each** location where the project is being delivered to participants. You can use identical posters at each location, providing what they say is accurate for all. The logo must be prominent.

Posters must be visible and large enough so that they can be seen by members of the public. We'll look for these when we visit the project and in photographs supplied by you as part of your progress check.

A link to a poster template can be found at the bottom of this Annex.

### **Print and publications**

The logo must be used on **all** printed documents and publications. This includes:

- display banners and posters
- newsletters
- general or job advertisements and notices
- job descriptions
- promotional materials like leaflets, brochures, flyers and invitations

- business cards, stationery, letterheads and compliment slips
- project documentation, including all timesheets, induction materials, reports and papers
- procurement materials.

### Websites

All organisations involved in the project must have a short description of the project on their website summarising its aims and results with an acknowledgement that the funding has come from ESF/ESIF.

- Where a website has been developed specifically for the funded project, the full colour version of the logo must be placed on the homepage.
- Where you are placing details of the project on a website which is not exclusively for the project, the full colour version of the logo must be placed on the main page for the project.
- In both cases, the logo must be immediately visible when the website or main project page loads.

### Electronic materials

The logo must be used on all electronic materials. This includes but is not restricted to:

- email footers and signatures
- e-newsletters
- presentation slides
- press notices
- audio visual materials, such as films, video, DVDs or CD Roms
- social media tools like Facebook and Twitter.

### Media and Public Relations activity

It is good practice to develop press releases for the launch of the project and to publicise key milestones and achievements. All press releases relating to the project must include:

- (1) the correct logo
- (2) a text reference to CHART and ESF/ ESIF in the main body of the release
- (3) the 'notes to editors' text below:

For ESF projects:

*The project (**either** has received **or** is receiving up to) £[INSERT AMOUNT] of funding from the European Social Fund as part of the 2014-2020 European Structural and Investment Funds Growth Programme in England. The Department for Work and Pensions (and in London the intermediate body Greater London Authority) is the Managing Authority for the England European Social Fund programme. Established by the European Union, the European Social Fund helps local areas stimulate their economic development by investing in projects which will support skills development, employment and job creation, social inclusion and local community regenerations. For more information visit <https://www.gov.uk/european-growth-funding>.*

For ESIF projects:

*The project (**either** has received **or** is receiving up to) £ [INSERT AMOUNT] of funding from the England European Structural and Investment Funds Growth Programme 2014-2020. The Department for Communities and Local Government and the Department for Work and Pensions (and in London the intermediate body Greater London Authority) are the Managing Authorities for European Regional Development Fund and European Social Fund funding through the Growth Programme, funds established by the European Union to help local areas stimulate their economic development. By investing in projects the funds will help to support innovation, businesses, skills and employment to improve local growth and create jobs. For more information visit <https://www.gov.uk/european-growth-funding>.*

If an organisation is interviewed by the media with the aim of producing a news story or advertisement to promote the project, explicit reference should be made to ESF/ ESIF.

A link to a press release template can be found at the bottom of this Annex.

### **Events, conferences, seminars and workshops**

All materials and documents produced for an event, including invitations, tickets, press releases, exhibitions stands and presentation slides must acknowledge and reference the funding received by displaying the correct logo.

### **Informing participants**

As well as promoting the role of CHART and the ESF/ ESIF on your written and electronic materials, you must also make sure that participants are notified that the money for the project has come from this source.

Lead organisations and their partners must ensure that CHART and ESF/ ESIF are acknowledged:

- during induction sessions
- in all support and paperwork provided to beneficiaries
- in internal newsletters and bulletins
- in any leaflets explaining the European investment in the project
- in all communication activities listed.

It's essential that you retain evidence that you have informed beneficiaries in these ways. The CHART Programme Team, the managing authority or the European Commission may also ask to speak to beneficiaries engaged on the project to check this.

### **Evidencing publicity**

Failure to provide appropriate evidence of publicity is one of the most common audit failings and is subject to a high degree of attention from England and European Commission verification and audit visits.

It's therefore essential that lead organisations and their partners have robust working practices in place from the very start of the project to ensure the publicity requirements are being met.

If organisations are unable to evidence adherence to the publicity requirements, a financial penalty may be imposed by us, the managing authority or the European Commission.

- To help ensure the publicity requirements are being implemented in full, it's a good idea to put someone in place who is responsible for managing communications and marketing for the project.
- Before you publish anything, we recommend you send us drafts of your publicity materials. This will prevent errors from slipping through that may result in publicity (such as job advertisements) needing to be reissued.
- During the monitoring of your project, we will make regular checks of the publicity and promotional materials organisations are producing. We may ask you send us a sample of these.
- Keep originals of everything. If you reference a communication activity anywhere in your project work then you must have evidence of this to hand. Verification and audit visits will look at publicity as a matter of course and if a particular item is missing or incorrect, this could contribute to a financial penalty being imposed.

Copies of publicity will need to be kept for audit purposes. This includes press releases and promotional items.

You can find more details in “Branding and publicity requirements for the 2014 to 2020 European Regional Development Fund and the European Social Fund” guidance note:

<https://www.gov.uk/government/publications/european-structural-and-investment-funds-programme-guidance>

Logos and templates for press releases and posters can be found here. You will need to download and access a .zip file to access these. Alternatively you may request copies from the CHART Programme Team:

<https://www.gov.uk/government/publications/european-structural-and-investment-funds-useful-resources>

## **Annex L: Sample Grant Funding Agreement**

A sample Grant Funding Agreement can be found on the CHART microsite at [www.hastings.gov.uk/chart](http://www.hastings.gov.uk/chart). If you cannot access the form online, please email the CHART Programme Team for a copy [CHART@hastings.gov.uk](mailto:CHART@hastings.gov.uk).

[The remainder of this page is intentionally blank]

## **Annex M: Self-Declared Adjustments**

If you discover an error in a claim that has already been paid, you can submit a self-declared adjustment (SDA). Please note SDAs should only be used in the case of overpayments.

Identified errors can be corrected and funds re-used if the Accountable Body accepts that an error is a “technical and clerical” error that has been discovered as part of your own management and control systems. Examples of these are below, please note this list is not exhaustive and it is the CHART Programme Team’s discretion to decide if the issue is deemed clerical/technical:

- Typo errors (decimal point in the incorrect place/too many digits)
- Formula mistakes / calculation mistakes (for example in any spread sheets projects have created to collect data / Hourly rate methodology)
- Selecting incorrect Category of Region (CoR)/Investment Priority (IP)/Priority Axis (PA)
- Errors occurred due to incorrect advice or information

You must submit your SDA within the same calendar year as the claim it is adjusting. If for whatever reason you wish to submit an SDA outside of this timescale, please contact the CHART Programme Team for guidance.

SDAs are a last resort only. If you repeatedly make SDA claims, then the CHART Programme Team will need to investigate this, particularly if the SDAs are for the same reason each time.

Please note that an SDA claim cannot be made if your project is subject to an Audit as part of the CHART programme. You will need to wait until the Audit is complete.

If you need to complete an SDA, please contact the CHART Programme Team and you will be sent a “CHART Programme Self-Declared Adjustment Form”.

## Annex N: The CHART Programme Team

Name	Can help with
<p style="text-align: center;"><b>Bridget Pont,</b>  <b>CHART Project Manager</b>  01424 451392  <a href="mailto:CHART@hastings.gov.uk">CHART@hastings.gov.uk</a>  <a href="mailto:bpont@hastings.gov.uk">bpont@hastings.gov.uk</a></p>	<ul style="list-style-type: none"> <li>• General programme enquiries</li> <li>• Assisting projects in identifying suitable public sector match</li> <li>• Partnership creation</li> <li>• ESIF rules and regulations</li> <li>• Project change requests</li> <li>• Overall management of CHART programme team</li> </ul>

<p><b>Vicky Fagan</b>  <b>CHART Programme Compliance and Support Officer</b>  01424 451393  <a href="mailto:CHART@hastings.gov.uk">CHART@hastings.gov.uk</a>  <a href="mailto:vfagan@hastings.gov.uk">vfagan@hastings.gov.uk</a></p>	<ul style="list-style-type: none"> <li>• CHART/LAG secretariat function</li> <li>• Completing the EOI Receipt Checklist ensuring compliance</li> <li>• Acknowledging receipt of EOI to the beneficiary and requesting further information to enable conformance where necessary</li> <li>• Checking and processing claims and carrying out validation and certification checks before sending claim and documentation</li> <li>• Checking, processing Grant Recipient claims, and collating and carrying out validation and certification checks before sending Accountable body claim and documentation onwards to the Managing Authorities</li> <li>• Maintaining records of all transactions, programme records and project files</li> <li>• Assisting in the collation of statistical information for the evaluation of associated projects in accordance with agreed outputs/targets.</li> <li>• Providing workshop, one on one and evidence gathering support to projects.</li> </ul>

## Annex O: GDPR Self-Assessment

This template will help you to understand your role in terms of the General Data Protection Regulations and ensure that you are compliant in terms of any personal data you hold.

[Company Name ]	
Are you a Data Controller or Processor? [Response]	
Structure and responsibility in the company	Response
1 Is there an awareness in the company that data protection is management responsibility, e.g. by? <ul style="list-style-type: none"> <li>• Existence of data protection guidelines</li> <li>• Description of the data protection goals</li> <li>• Regulation of responsibilities</li> <li>• Awareness of data protection risks</li> </ul>	
2 Does the company have a Data Protection Officer? <ul style="list-style-type: none"> <li>• If not, why not?</li> <li>• If yes, is it clear in which cases he/she will be involved by whom?</li> <li>• If yes, has the Supervisory Authority been informed according to Article 37 paragraph 7 GDPR?</li> </ul>	
Overview of processing activities	Response
3 Do you have records of your processing activities according to Article 30 of GDPR?  If not, why not, and is this documented?	
Involvement of third parties	Response
4 Do you engage third parties for any Cloud data processing?  If yes, have you entered into the necessary agreements containing the minimum content of Article 28 paragraph 3 of GDPR with all your data processors?	
Transparency, information duties and assurance of data subject rights	Response

5	<p>Does your privacy policy or statement include:</p> <ul style="list-style-type: none"> <li>(a) Contact details of the Data Protection Officer</li> <li>(b) Legal basis for processing of personal data</li> <li>(c) If the purpose for processing data on your behalf or on behalf of third parties lies on legitimate interests: specify the legitimate interests</li> <li>(d) If you transfer data to third countries: the appropriate safeguards for the protection of the data applied by you.</li> <li>(e) Retention period, if impossible to provide, specify the determination of the storage period.</li> </ul>	
6	<p>Have you established procedures in order to satisfy requests for data portability by the data subject (Article 20 GDPR)?</p>	

## **Annex P: Payment Schedule**

A payment schedule template can be found on the CHART microsite at [www.hastings.gov.uk/chart](http://www.hastings.gov.uk/chart). If you cannot access the form online, please email the CHART Programme Team for a copy [CHART@hastings.gov.uk](mailto:CHART@hastings.gov.uk).

## Annex Q: Project Change Request Form

This form should be completed by a Lead Partner only.

You can use this form to tell us about any changes you want to make to your Project. These might be:

- Changes to your primary or legally responsible contact information
- Changes to your partnership or management structure of the project
- Changes to your target schedule
- Changes to your project outcomes
- Changes to your project budget
- Changes to the delivery of the project

The CHART Programme Team will need to agree these changes with you before you can proceed, so make sure you submit this form in plenty of time.

### Part 1: Your organisation

#### To be completed by Lead Partner only

Lead Partner:	
Project name:	
Project ID:	
Date:	
Person completing this form:	
Project outline	

## Part 2: Changes to your contact information

Only complete this section if you wish to make changes to your contact information. You only need to fill in boxes where information has changed.

Do these changes relate to:

- Your primary contact ☐
- Your legally responsible contact ☐

Personal details	
Title	
Forenames	
Surname	
Job title or position	
Date of birth (dd/mm/yy)	
Telephone number	
Mobile number	
Email address	
Home address	
Flat number	
Building number	
Building name	
Street	
Town or city	
Postcode	
Number of years at this address	
Correspondence address - If the preferred correspondence address is not the organisation's address.	
Flat number	

Building number	
Building name	
Street	
Town or city	
Postcode	

### Part 3: Changes to your partnership

Only complete this section to let us know if you want to:

- Make changes to the membership of your partnership ☐
- Replace a partner with a new organisation through the procurement process ☐
- Make changes to your Partnership Agreement ☐

You will need to explain what this change will be, why this change is proposed and what the impact will be on your Partnership or Project Management structure. You may write up to 400 words.

#### **Part 4: Changes to your target schedule**

Only complete this section if you want to change your target schedule. You will need to explain why you want to make this change and what the impact will be should we agree this change.

## **Part 5: Changes to your project Outcomes**

Only complete this section to tell us if you want to:

- Re-focus or replace one or more of your project outcomes ☐
- Change the type or number of participants/ extent to which they will benefit ☐

- Change your project activities that you will deliver to achieve your project outcomes ☐
- Revise the indicators that you will use to measure changes resulting from your project's activities ☐

Write up to 400 words to explain why you want to make these changes and what the impact will be on your project.

## **Part 6: Changes to your budget**

Only complete this section to tell us if you want to:

- Vary your expenditure between budget headings by more than 10% from what you forecast in your Full Application ☐
- Add additional lines of expenditure to what you forecast in your Full Application ☐
- Revise your grant instalments by more than 10% of what you forecasted in payment schedule ☐

You must explain why you want to make the change and any impact this will have on your Project. You may write up to 400 words.

## **Part 7: Changes to your delivery**

You will only need to complete this section to tell us if you want to change:

- The objectives, target groups or delivery areas of your project ☐
- The delivery structure and approaches from what you told us about in your stage two application ☐
- The nature of the activities you will be delivering because of new information ☐

You will need to explain why you want to make the change and any impact this will have on your project. You may write up to 400 words.

## **Part 8: Declaration**

You confirm that:

- The information in this form is accurate and true
- The money from the European Structural and Investment Funds is being used exclusively for the project described in your original application, together with any changes you've agreed with us since then
- There haven't been any significant changes to your project or the governance of your organisation or partnership apart from any you've told us about here or we've agreed to in writing
- Your organisation is following all current statutory requirements and other laws and regulations relating to the project and its working including: adherence to employers' liability insurance; procurement regulations; the national minimum wage; the working time directive; health and safety; safeguarding of children, young people and vulnerable adults; data protection and intellectual property rights legislation.

## **Annex R: Project Outcome Schedule**

**This document is pending**

## Annex S: State Aid Checklist

Please note this checklist does not constitute and is not intended as a substitute for specialist legal advice. This checklist is intended to be used as a quick reference tool to help you understand whether your project is likely to constitute State Aid and therefore whether you will need to seek additional advice. If you think your project will constitute State Aid, please contact the CHART Programme Team.

### Section 1: Is the project an ‘undertaking’

The State aid rules will only apply if the grant applicant is an ‘undertaking’ i.e. any organisation engaged in "economic activity."

“Economic activity” means putting goods or services on a market. It is not necessary to make a profit to be engaged in economic activity: if others in the market offer the same good or service, it is an economic activity.

Therefore it is the activities intended to be carried with grant support that must be considered in order to determine whether the applicant should be treated as an ‘undertaking’. It does not matter for example whether the applicant is a not-for-profit organisation, a charity or a public body.

Please answer the following question from the information provided in the grant application:

Question	Answer
<i>Does the grant application request support for economic activity?</i>	Yes <input type="checkbox"/>  No <input type="checkbox"/>

If the activities being grant aided are economic in nature the grant applicant should be classified as an ‘undertaking’ and Section 2 below must be completed.

If the answer to this question is ‘No’ no further Sections need be completed as the aid is not State Aid.

**It is likely that most projects applying for funding under Work Package 4 will not be considered an “undertaking”.**

**This is because the funding will “flow through” to the individuals who are participating in your project.**

*NB. It is possible that a project application may include both economic and non-economic activity. In such cases, the grant applicant will be considered as an undertaking and Sections 2 and 3 below must be considered in respect of the economic activities only*

## **Section 2: Will grant support constitute State aid?**

“State aid” is aid which meets 4 conditions established by the EU Treaty. These conditions are set out in the Table below. If any one of these conditions is not satisfied the support will not constitute State aid.

Conditions 1 and 2 will always be satisfied when a grant is awarded to an undertaking under CHART ESF. Please consider Conditions 3 & 4 carefully in conjunction with the guidance provided on ‘local activities’ below the checklist and decide whether these conditions are satisfied. If you decide Condition 3 & 4 are not satisfied please provide adequate reasons for your determination.

<b>No.</b>	<b>Condition</b>	<b>Answer</b>	<b>Notes</b>
1.	Is the aid granted by the State or through State resources?	Y	Under CHART, the answer to this will always be “Yes”
2.	Does the aid provide a ‘selective advantage’ by favouring certain undertakings or production of certain goods?	Y	Support under CHART is ‘selective’ as e.g. it is available only to applicants within the CHART area. The grant aid provides an advantage as it offsets costs which would otherwise have to be borne by the undertaking itself. The answer to this question will always be ‘Yes’

3.	Does the intervention distort or threaten to distort competition?	Y/N (delete as appropriate)	This will occur if the aid potentially or actually strengthens the position of the aid recipient in relation to competitors. Almost all selective aid will have potential to distort competition - regardless of the scale of potential distortion or market share of the aid recipient. The distortion of competition does not have to be substantial or significant.
4	Does the intervention affect Trade between member States	Y/N (delete as appropriate)	This includes potential effects. Most products and services are traded between Member States and therefore aid for almost any selected economic activity is capable of affecting trade between Members States even if the undertaking does not directly trade with Member States. The only likely exceptions are single undertakings with a purely local market (see guidance below on “effect on trade”)

Conclusion (delete as appropriate):

- Aid is State Aid (award aid in accordance with the options provided under Sections 3 & 4 below).
- Aid is not State Aid (Reasons must be given below).

Reasons

### **Guidance on Distortion of Competition and Effect on Trade**

The guidance below is copied directly from a draft Commission Notice on the “Notion of Aid” and should be considered if you are considering whether operations fall to be treated as engaged only in local activity.

#### **1. General principles**

Public support to undertakings is only prohibited under Article 107(1) TFEU if it “distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods” and only insofar as it “affects trade between Member States”.

These are two distinct and necessary elements of the notion of aid. In practice, however, these criteria are often treated jointly in the assessment of State aid as they are, as a rule, considered inextricably linked.

#### **2. Distortion of competition**

A measure granted by the State is considered to distort or threaten to distort competition when it is liable to improve the competitive position of the recipient compared to other undertakings with which it competes. For all practical purposes, a distortion of competition within the meaning of Article 107 TFEU is thus assumed as soon as the State grants a financial advantage to an undertaking in a liberalised sector where there is, or could be, competition.

The fact that the local authorities assign a public service to an in-house provider (even if they were free to entrust that service to third parties) does not as such exclude a possible distortion of competition. However, a possible distortion of competition is excluded if (i) a given service is subject to a legal monopoly

(established in compliance with EU law) and is not in competition with similar (liberalised) services and (ii) the service provider cannot be active (due to regulatory or statutory constraints) in any other liberalised (geographical or product) market.

Public support is liable to distort competition even if it does not help the recipient undertaking to expand and gain market shares. It is enough that the aid allows it to maintain a stronger competitive position than it would have had if the aid had not been provided. In this context, for aid to be presumed to distort competition, it is normally considered sufficient that the aid gives the beneficiary an advantage by relieving it of expenses it would otherwise have had to bear in the course of its day-to-day business operations. The definition of State aid does not require that the distortion of competition or effect on trade is significant or material. The fact that the amount of aid is low or the recipient undertaking is small will not in itself rule out a distortion of competition or the threat thereof, provided however that the likelihood of such a distortion is not merely hypothetical.

### **3. Effect on trade**

An advantage granted to an undertaking operating in a market which is open to competition will normally be assumed to distort competition and also be liable to affect trade between Member States. Indeed, *“where State financial aid strengthens the position of an undertaking as compared with other undertakings competing in intra-Community trade, the latter must be regarded as affected by the aid”*.

Public support can be considered capable to affect intra-EU trade even if the recipient is not directly involved in cross-border trade. For instance, the subsidy may make it more difficult for operators in other Member States to enter the market by maintaining or increasing local supply.

Even a public subsidy granted to an undertaking which provides only local or regional services and does not provide any services outside its State of origin may nonetheless have an effect on trade between Member States where undertakings from other Member States might provide such services (also through the right of establishment) and this possibility is not merely hypothetical. For example, where a Member State grants a public subsidy to an undertaking for supplying transport services, the supply of these services may, by virtue of the subsidy, be maintained or increased with the result that undertakings established in other Member States have less of a chance of providing their transport services in the market in that Member State. Such an effect may however be less likely where the scope of the economic activity is very small, as may be evidenced by a very low turnover.

In principle, trade can also be affected even if the recipient exports all or most of its production outside the Union, but in such situations the effect is less immediate and cannot be assumed from the mere fact that the market is open to competition.

In establishing a distortion of competition or an effect on trade, it is not necessary to define the market or to investigate in detail the impact of the measure on the competitive position of the beneficiary and its competitors. All that must be shown is

that the aid is such as to be liable to affect trade between Member States and to distort competition.

However, the Commission has in several cases considered that, due to their specific circumstances, certain activities had a purely local impact and consequently did not affect trade between Member States. Common features of such decisions are that

- (a) the aid does not lead to demand or investments being attracted to the region concerned and does not create obstacles to the establishment of undertakings from other Member States;
- (b) the goods or services produced by the beneficiary are purely local or have a geographically limited attraction zone;
- (c) there is at most a marginal effect on the markets and on consumers in neighbouring Member States;

Some examples are:

- swimming pools and other leisure facilities intended predominantly for a local catchment area (N 258/2000 *Leisure Pool Dorsten*);
- museums or other cultural infrastructure unlikely to attract visitors from other Member States (N 630/2003 *Local Museums Sardinia* & SA.34466 *Cyprus – Center for Visual Arts and Research*);
- hospitals and other health care facilities aimed at a local population (N543/2001 *Ireland – Capital allowances for hospitals*, & SA.34576 *Portugal – Jean Piaget North-east Continuing Care Unit*);
- news media and/or cultural products which, for linguistic and geographical reasons, have a locally restricted audience (N 257/2007 *Subsidies for theatre productions in the Basque country*; N 458/2004 *Editorial Andaluza Holding*; SA.33243 *Jornal de Madeira*);
- a conference centre, where the location and the potential effect of the aid on prices is unlikely to divert users from other centres in other Member States (N 486/2002 *Sweden – Congress hall in Visby*);
- concerning the financing of cable ways (and in particular ski lifts), the Commission practice clarified that the following factors should typically be taken into account to draw a distinction between installations liable to have a local catchment area and others<sup>262</sup>: a) the location of the installation (e.g. within cities or linking villages); b) operating time; c) predominantly local users (proportion of daily as opposed to weekly passes); c) the total number and capacity of installations relative to the number of resident users; d) other tourism-related facilities in the area. Similar factors could, with the necessary adjustments, also be relevant for other types of facilities.
