## Section 3 Supporting information for nomination

**Any information entered in this section only may be copied and passed onto the owner of the property you are nominating.** Definition of an asset of community value can be found in the guidance notes.

Why do you feel the property is an asset of community value? Please give as much information as possible.

We feel the property is an asset of community value because it has been a safe space for those in need for many years and a place for community activities to perform their vital roles. Its location lends itself perfectly to being a hub for social activity through its accessibility to public transport and the cycle network and being right in the heart of the thriving and diverse St Leonards community. The kitchen facilities have been vital for many

service users and it could continue to be a community asset bringing sustenance to those in need. The Bike Lab project could use the space and offer its ongoing use as a social hub for a variety of groups and help us continue our work supporting people into active travel with all the well evidenced positive impacts on health, wellbeing, social cohesion and economic measures that increased cycling and working together can bring.

#### **Section 4 Boundary of property**

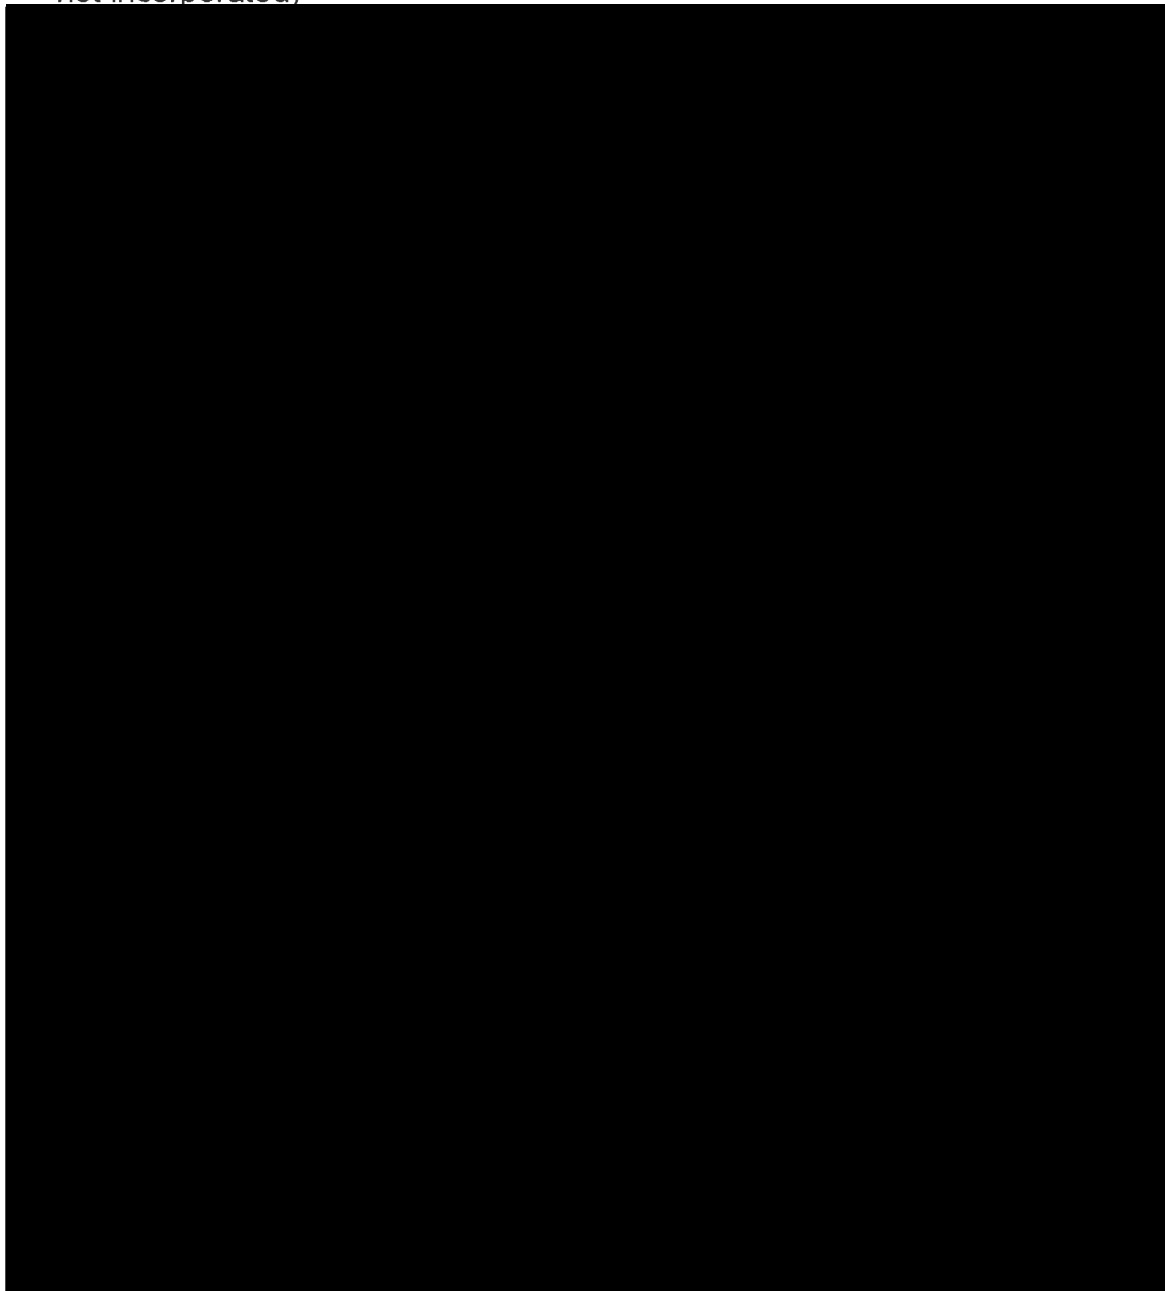

What do you consider to be the boundary of the property? Please give as much detail/be as descriptive as possible (if possible, please also include a plan).
