This report covers only those areas inspected at the time of the visit and does not necessarily extend to the whole premises. It was not possible to assess all the practices or conditions. As you will appreciate, day to day monitoring of good working practices is one of the responsibilities of the food business operator. This does not indicate compliance with any provision of the above legislation. This report sets out legal advice requiring work to be carried out. However, failure to act on those items that are legal requirements could lead to legal proceedings. Any alternative means of achieving the same effect may be chosen, but the enforcing authority must be satisfied of this. If you wish to discuss any matter contained in this report please phone the officer named below. This report is not exhaustive. Failure by the enforcing authority to identify any contravention of the law does not indicate that none exist.
