PROVISIONAL FHSR RATING THIS SCORE MAY GO UP OR DOWN

This report covers only those areas inspected at the time of the visit and does not necessarily extend to the whole premises. It is not possible to cover all the provisions undertaken. As discussed, day to day monitoring of good working practices must be a clear responsibility of the site manager(s). If there is not adequate compliance with any provision of the above legislation, this report is not a legal notice requiring work to be carried out. However, failure to act on these items that are requirements may lead to formal action. Other means of achieving the same effect may be chosen. For further information or to clarify any matters raised in this report, please contact the inspecting officer. If you feel the action required by this report is not reasonable then you may, within the next fourteen days, contact the Environmental Health Manager on 01424 431129.
